We have a target certification date for the primary of 9/17. Ballot will be established for general 9/18, proofed. Sent to printer 9/19. Expect proofs back from printer and would be able to generate pdfs on 9/20 to start faxing. This is of course, if there is no recount from the Primary.

Gail,
What date will Alaska fax out ballots to UOCAVA voters that request faxed ballots?

Paddy
