Subject: 21 days following Washington State's General Election

Hi Cameron,

Our RCW states that military and overseas ballots must be received prior to the counties' election certification date. Washington counties certify to the Secretary of State on November 23, 2010 and each county may certify at any time of that day. It is best to have ballots received by November 22, 2010 – which would be counting November 2 as day one of the 21 days.

I hope this is helpful. Please don't hesitate to let me know if you have further questions.

Carolyn

Carolyn Berger
