**2010 POST-ELECTION VOTING SURVEY OF UNIT
VOTING ASSISTANCE OFFICERS:
ADMINISTRATION, DATASETS, AND CODEBOOK**

**Defense Manpower Data Center
Human Resources Strategic Assessment Program
1600 Wilson Boulevard, Suite 400, Arlington, VA 22209-2593**

Acknowledgments

Defense Manpower Data Center (DMDC) is indebted to numerous people for their assistance with the *2010 Post-Election Voting Survey of Unit Voting Assistance Officers (2010 PEV4)*, which was conducted on behalf of the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). The survey program is conducted under the leadership of Timothy Elig, Director of the *Human Resources Strategic Assessment Program (HRSAP)*.

Policy officials contributing to the development of this survey include Paul Drugan and Allan White (Federal Voting Assistance Program).

DMDC's Program Evaluation Branch, under the guidance of Kristin Williams, Branch Chief, is responsible for the development of questionnaires in the survey program. The lead survey design analyst was Ryan Tulley. In addition, Toby Moore designed the unique presentation of complex items used in this tabulation volume.

DMDC's Personnel Survey Branch, under the guidance of David McGrath, Branch Chief, is responsible for sampling and weighting methods used in the survey program. The lead statistician on this survey was Eric Falk, supported by Jeff Schneider, DMDC.

DMDC's Survey Operations Branch, under the guidance of Laverne Wright, Branch Chief, is responsible for survey database construction and archiving. The lead operations analyst on this survey was Margaret Coffey, DMDC, supported by Jenna Bender, Consortium Research Fellow. Data Recognition Corporation performed data collection and editing.

DMDC's Survey Technology Branch, under the guidance of Frederick Licari, Branch Chief, is responsible for the distribution of datasets outside of DMDC and maintaining records on compliance with the Privacy Act and 32 CFR 219.

2010 POST-ELECTION VOTING SURVEY OF UNIT VOTING ASSISTANCE OFFICERS: ADMINISTRATION, DATASETS, AND CODEBOOK

Introduction

The *Human Resource Strategic Assessment Program* (HRSAP), located at Defense Manpower Data Center (DMDC), conducts surveys to support the personnel information needs of the Under Secretary of Defense for Personnel and Readiness [USD(P&R)]. These surveys assess the attitudes and opinions of the entire Department of Defense (DOD). Although the primary sources of information of HRSAP are *Status of Forces Surveys* (SOFS), DMDC also conducts special polls to obtain quick targeted answers on special topics. *QuickCompass* surveys are being developed as a method for obtaining targeted answers to a small number of questions primarily from individuals expected to be able to be reached by e-mail and to have Internet access to complete the data collection.

The Uniformed and Overseas Citizens Absentee Voting Act of 1986 (UOCAVA), 42 USC 1973ff, permits members of the Uniformed Services and Merchant Marine, and their eligible family members and all citizens residing outside the United States who are absent from the United States and its territories to vote in the general election for federal offices. These groups include:

- Members of the Uniformed Services (including Army, Navy, Air Force, Marine Corps, Coast Guard)
- U.S. citizens employed by the Federal Government residing outside the U.S., and
- All other private U.S. citizens residing outside the U.S.

The Federal Voting Assistance Program (FVAP), under the guidance of USD(P&R), is charged with implementing the UOCAVA and evaluating the effectiveness of its programs. The FVAP Office asked DMDC to design, administer, and analyze post-election surveys on Uniformed Services voter participation, overseas nonmilitary voter participation, and local election officials. Without such surveys, the Department will not be able to assess and improve voter access. In addition, such surveys fulfill 1988 Executive Order 12642 that names the Secretary of Defense as the “Presidential designee” for administering the UOCAVA and requires surveys to evaluate the effectiveness of the program in presidential election years.

The objectives of the 2010 post-election surveys are: (1) to gauge participation in the electoral process by citizens covered by UOCAVA, (2) to assess the impact of the FVAP’s efforts to simplify and ease the process of voting absentee, (3) to evaluate other progress made to facilitate voting participation, and (4) to identify any remaining obstacles to voting by these citizens.

The *2010 Post-Election Voting Survey of Unit Voting Assistance Officers (2010 PEV4)* was conducted from December 3, 2010 to February 11, 2011. The *2010 PEV4* Web survey was

designed to capture the attitudes and behaviors of UVAOs on providing voting assistance and sources of voting information and resources to Armed Forces personnel.

Overview of Report

This report describes the procedures used to develop the instrument, design the sample, conduct the survey, process the data and prepare analysis weights. Along with Appendixes A and B, the methods section details how the survey was conducted. DMDC (2011a) provides details on sampling and weighting. Tabulated results of the survey are reported by DMDC (2011b).

Following the summary of the survey methodology is a description of the survey analysis file layout and key variables. Appendixes C-J address key concepts required for the analysis of complex survey data and the structure of records in the survey analysis files are introduced in this section. The Appendixes in this report include:

- A – Web survey instrument.
- B – Samples of all possible communications sent to sample members during the survey administration: letters, emails, and brochure.
- Conventions for variable naming and construction are provided in Appendix C (annotated questionnaire) and Appendix D (coding scheme),
- Appendixes E, F, and G list the names and values of all variables in the basic survey dataset and the Privacy Act confidential variables.
 - E lists the variables in alphabetic order and flags the confidential variables with an asterisk (*).
 - F lists the variables in the order that they appear in the dataset. Variables with the same function are grouped together, (i.e., all variables used for weighting are located together).
 - G provides a frequency for each variable with the SAS¹ values, OS flat file² values and SAS labels in the order that the variables appear in the dataset. In addition to the variables available on the basic-survey file, Appendix G contains details for the confidential variables that had to be suppressed to preserve the privacy of survey respondents and nonrespondents.
- H provides the record layout for the basic survey flat file.
- The SAS code used to construct the analytic variables are included in Appendix I.

¹ SAS® is a registered trademark of SAS Institute Inc., Cary, NC, USA.

² The OS flat file is a text version of the dataset. The variables are in the columns and the records are in the rows. This data can be loaded into any statistical software package.

- J shows how current survey relates to previous surveys to the population.

Method

Post-Election Voting Surveys of military members, overseas federal civilian employees, overseas U.S. citizens, voting assistance officers, and local election officials in the U.S. have been conducted by FVAP in 2000 and 2004 as part of the UOCAVA mandate. However, poor sampling methodology and low survey response rates for these surveys raised concerns about FVAP's ability to generalize the views and voting experiences of survey respondents to all UOCAVA citizens.³ In addition, cognitive issues with the questionnaires themselves may have affected the accuracy of the data collected by each of the post-election surveys.⁴

In coordination with FVAP, the Defense Manpower Data Center (DMDC) developed methodologies for the 2010 PEV surveys that addressed the weaknesses of previous survey administrations.⁵ For 2010, six Post-Election Voting Surveys were conducted. The populations were: military members, U.S. citizens overseas, voting assistance personnel of military units and the DoS, spouses of military members and local election officials in the U.S. The following sections describe the methodology used in the *2010 PEV4*.

Survey Instrument

The topics covered in the *2010 PEV4* questionnaire include voting assistance, electronic transmission of election materials, voting assistance guide, voting information newsletter, FVAP Web site, toll-free telephone service, and other sources of voting information and resources. This survey was subdivided into the following ten topic areas:

1. *Background Information*—Service, paygrade, geographic location, time in location, age, duration of Unit Voting Assistance Officer (UVAO) assignment, and prior UVAO service.
2. *Training*—Receipt and usefulness of UVAO training.
3. *Voting Assistance*—Number of permanent party military members and UVAOs assigned to units served, number of members assisted with voting, hours worked as UVAO, satisfaction with support received for UVAO duties, types of activities and assistance provided as UVAO, and satisfaction with aspects of performance of UVAO duties.
4. *Technological Assistance in Voting*—Access to technology for UVAO duties.
5. *Voting Assistance Guide*—Receipt and usefulness of the Department of Defense 2010-11 Voting Assistance Guide (VAG) and preferred format of VAG.

³ Details of sampling issues for each survey are reported by Westat (2007a).

⁴ Questionnaire design issues are described by Westat (2007b).

⁵ The planned methodology is summarized by DMDC (2008).

6. *FVAP's News Releases*—Receipt, forwarding, and usefulness of FVAP News Releases.
7. *FVAP's Web Site*—Use of, satisfaction with, and reasons for using or not using FVAP Web site.
8. *FVAP's Automated Online Assistant*—Recommendations to use the FVAP Automated Online Assistant to complete a Federal Post Card Application (FPCA) and to complete a Federal Write-In Absentee Ballot (FWAB).
9. *FVAP's Toll-Free Telephone Service*—Use of FVAP toll-free telephone service, satisfaction with FVAP telephone service, and reasons for not using the telephone service.
10. *Other Sources of Voting Information*—Usefulness of sources of voting information in performing UVAO duties (e.g., Automated Online Assistant, online training programs) and adequacy of supply of election materials.

Sample

The target population for the 2010 PEV4 consisted of all military Unit Voting Assistance Officers of the Army, Navy, Marine Corps, Air Force, and Coast Guard excluding National Guard and Reserve members. As a list of UVAOs was not available by the time of the survey administration, the population of interest was further defined as active duty units with 25 or more permanently assigned active duty members because units of this size are required to designate a UVAO (see DoD Directive 1000.04, Section 5.2.1.4.2).

Constructing the Frame and Drawing the Sample

The sampling frame was built from the June 2010 Active Duty Master Edit File (ADMFE) and consisted of a census of 9,914 unique unit identification codes or UICs that had assigned more than 25 active duty members. Table 1 presents frame counts by Service.

Table 1.
Sample Counts of Unit Identification Codes by Service

Total	Army	Navy	Marine Corps	Air Force	Coast Guards
9914	4879	1755	504	2348	428

Stratification Variables

Since this survey was a census of all units with 25 or more permanently assigned active members, all units were automatically included in the sample. However, the frame can be classified by the level of variables listed in Table 2.

Table 2.
Classification Variables on File

Variable	Categories
Service Branch*	<ul style="list-style-type: none">• Army• Navy• Marine Corps• Air Force• Coast Guard
Geography*	<ul style="list-style-type: none">• Continental United States (CONUS) & Alaska and Hawaii (OCONUS)• Overseas & Unknown
UIC Size*	<ul style="list-style-type: none">• Less than 100 active duty members• 101 – 250 active duty members• 251 or more active duty members
UIC	<ul style="list-style-type: none">• Unit Identification Code

Note. * denotes stratification variable.

Respondents

Sample Losses

Losses to the drawn sample are listed in Table 3 and reviewed here. Table 3 is limited to responses to the Web questionnaire. Sample members were lost from the sample for two main reasons: (1) an inability to locate the sample member, and (2) refusal to participate in the survey or other failure to respond to the survey.

A list of UVAOs was not available by the time of the survey administration period. Only UIC addresses were available. Procedures used to locate members are explained in a later section that describes the Survey Control System.

Table 3.
Final Sample Relative to Drawn Sample

	Sample Size n	% of Drawn Sample
Drawn sample (census)	9,916	100
Ineligible on Master Files	2	0
Self-Reported Ineligible	0	0
Total: Ineligible	2	0
Eligible Sample	9,914	100
Not Located (Estimated Ineligible)	2,167	22
Not Located (Estimated Eligible)	2	0
Total: Not located	2,169	22
Located Sample	7,745	78
Requested Removal From Survey Mailings	27	0
Returned Blank	266	3
Skipped Key Questions	50	0
Did Not Return A Survey (Estimated Ineligible)	5	0
Did Not Return A Survey (Estimated Eligible)	5,431	55
Total: Non-Response	5,779	58
Usable Responses	1,964	20

Two sample members were lost from the final sample through classification as ineligible. Approximately 22% of the drawn sample (2,169 of 9,914) was lost because the sample members could not be located. Nonrespondents included the following groups: sample members who contacted the operations contractor (by mail, fax, e-mail, Web, or telephone) and asked to have their names removed from the survey mailing list, and 5,779 sample members who did not return a survey.

Respondents included all sample registrants who completed on the Web 50% of applicable questions.⁶ At the conclusion of the survey fielding, 1,964 eligible, locatable sample members had returned usable surveys.

⁶ Applicable questions are those to be completed by all respondents and excluded items that could be skipped over depending on prior answers.

Location, Response and Completion Rates

Beginning in 1995, DMDC standardized its methods for calculating response rates and completion rates using procedures patterned after those advocated by the Council of American Survey Research Organizations (CASRO). CASRO noted that varying operational definitions of response rates can lead to problems or confusion (e.g., when awarding contracts requiring pre-specified response rates or when interpreting the results of a survey). As a result, CASRO formed a task force to recommend guidelines for standardizing the operational definitions of response rates. The new DMDC procedures closely follow CASRO's Sample Type II design (see Council of American of Survey Research Organizations, 1982). This definition corresponds to The American Association for Public Opinion Research (AAPOR) RR3 (AAPOR, 2008), which estimates the proportion of eligible cases among cases of unknown eligibility.

Table 4 provides location, response, and completion rate information for the sample. The location rate is defined as the proportion of eligible sample members that were locatable. The completion rate is defined as the proportion of the located sample that submitted usable surveys. The response rate is defined as the proportion of eligible sample members that returned usable surveys.

Table 4.
Location Rates, Response Rates, and Completion Rates for Eligible Sample Members

Weighted Operational Rates	
Location rate	78%
Completion rate	25%
Response rate	20%

Survey Development and Administration

The survey was hosted on the operations contractor's secure Web site. Respondents entered the survey through a .mil site (<https://www.dmdc.osd.mil/dodsurvey>). This site stated the source of the survey's certification and requested sample members enter their personal ticket number and click "Continue." The sample members were redirected to the operations contractor's secure Web site (<http://www.dodsurvey.net>). Sample members next saw a Welcome page, which told them what the survey was about and gave them access to the frequently asked questions (FAQ). Next, members saw the Privacy Act Statement & Informed Consent Information. If the members agreed to do the survey, they clicked "Continue" to begin the survey.

Each survey question was displayed on its own Web page. For each question, the survey allowed respondents to return to the previous page, move forward to the next page, clear their response(s), or save and exit the survey. Respondents answered questions by clicking on radio buttons, checking boxes, or by text or numeric entry. If the respondent chose to save and return

to the survey later, upon returning to the survey, the respondent was required to enter their ticket number and was brought back to the item from which they exited. The final page of the survey had the option to submit the survey or to return to the previous page. In addition to the navigation features, the survey featured smart skips. Based on previous answers, the respondents would only be shown questions for which they were applicable (see Appendix D for skip information).

Survey Administration

The survey administration process began in December 2010, with the mail out of pre-notification letters to sample members. Three (3) reminder e-mails were sent during the field period to those non-responders for whom we had e-mail addresses. In addition, there were postal mailings of four reminder letters during the field period to those who hadn't submitted a survey. The specific dates of e-mail and postal mailings are displayed later in this section. The Service Voting Assistance Officer (SVAO) were sent 3 e-mail asking for their assistance in locating UVAO. The e-mails included a spreadsheet listing the units that have not yet responded and the corresponding ticket number.

Survey Control System

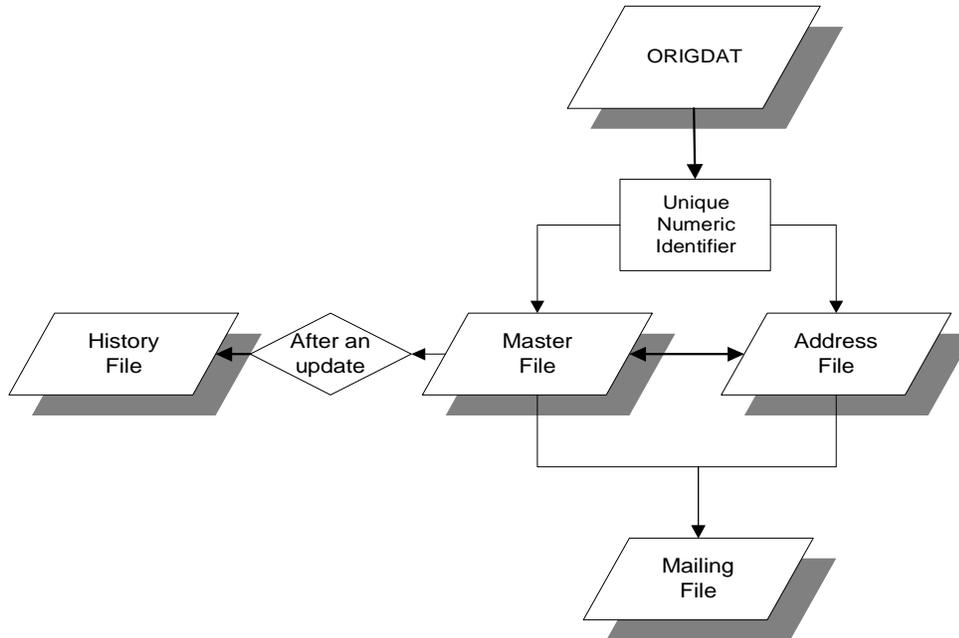

The Survey Control System (SCS)⁷ was used to monitor the data collection process and to track all data transactions over the course of the survey administration. The datasets in the SCS include sample unit's names and addresses, but do not contain data obtained from the survey instruments. Because of privacy concerns, SCS datasets are not available for basic survey file.

The operations contractor uses the SCS to store and update project data, monitor mailings, respond to documents returned as postal non-deliverables (PNDs) and bounced e-mail addresses, and determine survey participation and eligibility status. The SCS consists of five datasets: the ORIGDAT file, the ADDRESS file, the MASTER file, the HISTORY file, and the MAILING file. The files are linked relationally by INRECNO, a unique individual identification number that was assigned to each sample member when the record was loaded into the SCS.

Figure 1 displays the interrelationships among those datasets.

⁷ In this document, the term *SCS* refers to the set of data files as well as the program or operating system which generates and maintains those files.

Figure 1.
Survey Control System

ORIGDAT file. The ORIGDAT file consists of 9,914 records, one record for each unit of the sample. It is the original sampling frame file sent to the operations contractor by DMDC. The original file was loaded onto the operations contractor’s computer system and converted to a SAS^{®8} dataset. As the file was converted into a SAS dataset, the SCS generated a unique identification number (INRECNO) for each record. This number identifies the sample member throughout the SCS and also in returns data sets, comment text files and other specify text files. The names and some demographic data from the ORIGDAT file were loaded into the MASTER file in preparation for the first mailing. The addresses from the ORIGDAT file were loaded into the ADDRESS file.

ADDRESS file. The ADDRESS file tracked the postal and e-mail addresses that were maintained for each sample member. The ADDRESS file contains one record for each postal address for each sample member (e.g., if there were five addresses located for one sample member during the survey administration, that sample member has five separate records in the ADDRESS file) yielding an ADDRESS file containing 14,944 records. Each record is uniquely identified by the combination of INRECNO (identifying the sample member) and an address number (ADDRNO) assigned to each address. This address number is the sequential order of receipt of the address for a particular sample member. For example, if a sample member has one address record in the ADDRESS file, the address number for that record is one. If the sample

⁸ SAS[®] is a registered trademark of SAS Institute Inc., Cary, NC, USA.

member provided a change of postal or e-mail address the new address was added as address number two. The ADDRESS file was initially loaded with postal and e-mail addresses from the ORIGDAT file. Each record in the ADDRESS file includes the sample member's INRECNO, ADDRNO, the source of the address, and address priority code, a variable indicating whether the record is the highest priority address for this sample member, and variables indicating whether the address successfully reached the sample member.

The priority code assigned to a given address number for a sample member was used to determine the "best" or "highest priority" address for the sample member at any given time. It was originally determined by the source of the address. Address updates obtained directly from a sample member received a priority number of one. The order of priority of address sources from "highest priority" to "lowest priority" is as follows, respectively:

1. updates directly from a sample member (call, fax, e-mail, Web update or letter)
2. address corrections from the U.S. postal service, (ACS [electronic address change service], ACRs [address correction requests] and ODFs [out-of-date-forwarded mail])
3. DEERS unit addresses

MASTER file. The MASTER file is used by the SCS to select records for upcoming survey mailings. This file includes a record for each member of the sample and was initially created by extracting data from each record in the ORIGDAT file. Each MASTER record includes the sample member INRECNO and the address number for the highest priority postal and e-mail address in the ADDRESS file for this sample member. The MASTER file accommodated data updates through an automated process (e.g., updating the address number in use after the receipt of a postal or e-mail non-deliverable or Web update) or manual key entry (e.g., updating information in response to a telephone call, fax, letter return or e-mail from a sample member). As new information was received for a particular record (including changes to the highest priority address), the SCS updated the MASTER record (N=9,914) and wrote the old record to the HISTORY file. The MASTER file also contains a set of variables which summarize the sample member's participation in each of the mailings.

HISTORY file. The HISTORY file is a chronicle of the changes that occurred to the MASTER file. Each HISTORY record is a subset of an outdated MASTER record with the addition of a date and time stamp as the record is updated. That is, a HISTORY record is created when there is a name, address, paygrade, or eligibility status change in the MASTER file. Thus, the HISTORY file contains as many observations as there are updates to the MASTER file.

MAILING file. The MAILING file tracked all survey mailings (postal and e-mail). This file contains one record for either an item postal mailed or e-mailed during the survey administration or for tracking postal address updates from credit bureaus (N=42,053). Each MAILING record includes the INRECNO, address number used, date of mailing, mailing status, type of mailing, and the mailing identification code (MIC).

Address Update Procedures and Processing

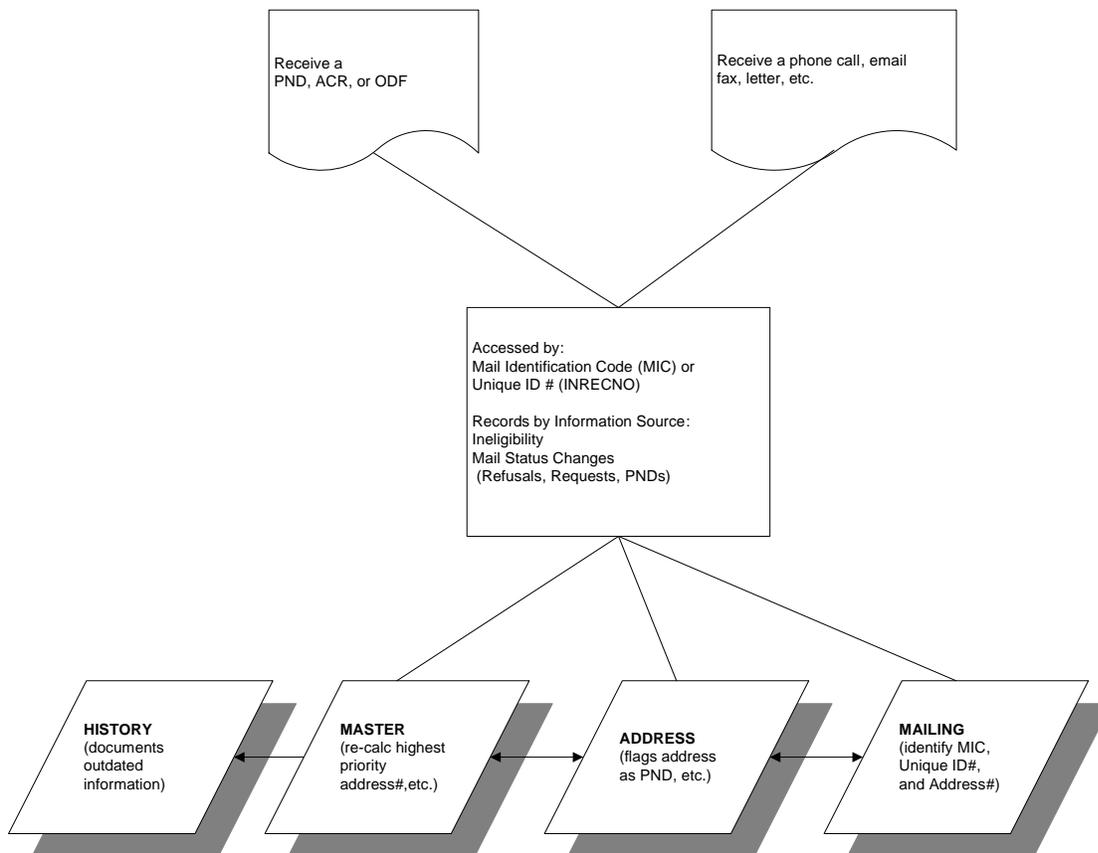

Initial Address Updates

Prior to the first mailing, the operations contractor ran all domestic residential addresses through Satori software to be formatted to conform to U.S. Postal Service standards.

Ongoing Address Updates

Address update procedures also occurred when (a) a survey document was returned as undeliverable, (b) a sample member self-reported a name, rank, or address change, or (c) the U.S. Postal Service forwarded address correction information. Figure 2 outlines these procedures.

Figure 2.
Address Updating Procedures

As a new address was entered into the ADDRESS file, its source (postal Address Correction Requested card or electronic update, telephone call, fax, letter, Web, or e-mail) was recorded and a new address number was assigned. The priority assigned to the address was based upon the source of the update and the date and time of the address (see the description of priority, for the ADDRESS file). At any given time, the current address used corresponded to the address number with the highest priority code.

If all known addresses for a sample member were returned Postal Non-Deliverable Mail (PND), the sample member's record in the MASTER file was flagged "no address available."

Updates from Sample Members

Updates from sample members could be communicated via the toll-free telephone number (either by speaking to the operations contractor's Call Center staff or by leaving a voice mail message). In addition, sample members could mail, fax or e-mail updates or go to the survey Web site and enter updates. Updates made on the Web site were loaded into the SCS before the start of the survey; once the survey was live the Web update page was no longer available. Other updates were entered into the SCS by the operations contractor's Call Center staff by the close of business on the day following receipt of the update.

DMDC noticed a high PND rate for Navy. DMDC provide the Navy SVAO with the list of units with bad address. Navy provided address corrections for roughly half of the PNDs. The update occurred right before the final letter was prepared.

Updates from the U.S. Postal Service

There are several types of address updates provided by the postal service. They are detailed below; each includes a description of the processing steps.

1. Postal Non-Deliverable Mail (PND): The sample member moved and no forwarding address was available. The mail piece was returned to the operations contractor. The operations contractor removed the letter from the envelope and scanned it to capture the Mailing Identification Code (MIC) in the lower right corner. A file of the MICs was loaded to the SCS so the records could be updated as PND. This was done as necessary to coincide with the mailing/re-mailing schedule. If the sample member had another address on file (e.g., the unit address), that address was used. If not, the Social Security Number was sent to the credit bureaus in search of a new address.
2. Address Change Service (ACS; electronic): The operations contractor maintains ACS with the postal service. The postal service assigned a participant code, which was placed in the address block of the letter. The operations contractor requested semi-weekly files, which the postal service provided on diskette via Express Mail. The operations contractor loaded the files upon receipt or before another mailing was prepared.
3. Address Correction Requests (ACR; hard-copy): The outbound envelopes contained the endorsement "Address Service Requested." The post office provided the corrections electronically or via hard copy cards that were sent to the operations

contractor. Electronic updates were loaded to the system on receipt, and hard copy corrections were key-entered by operations contractor's Call Center staff, typically by close of business the next day but no later than prior to the preparation of the next mailing.

Survey Materials and Their Distribution

Each eligible sample member received at most five original mailings: an announcement, and four reminders. In addition, e-mail was used to communicate with sample members who had an e-mail address. Those sample members for whom we had an e-mail address received at most three e-mail reminders..

General Mailing Procedures

Prior to every mailing, the SCS searched the records in the MASTER file to identify which records should be excluded (e.g., sample members self-reported as ineligible for survey participation, sample members who had already returned survey forms, and members with no valid addresses available). For re-mails (sent between mailings), the SCS identified only those records that had been updated since the prior mailing. More specifically, the SCS identified records that had resulted in PNDs or had been manually flagged for re-mailing (e.g., in response to a sample member calling the operations contractor stating she or he had received a reminder/thank you letter but had not received a survey, etc.).

Once all records for a particular mailing or re-mailing were identified, the SCS processed the records based on whether or not the mailing would include a survey form. If the mailing group was large enough to lead to a cost savings from sorting, the records were run through Satori postal software to sort the records according to first-class pre-sort postal regulations. After this procedure, a unique Mail Identification Code (MIC) was assigned to each record. The MIC was assigned either from the survey LITHOCODE list if a survey form was sent or independently if only a letter was sent.

Ticket Numbers for Web Survey Access

Prior to the first mailing, a list of ticket numbers⁹ for Web survey access was randomly generated. One secure ticket number was assigned to each sample member and remained linked to that member for the duration of the project. That is, while a member's MIC or lithocode changed with each mailing as described previously, the member's ticket number did not change. The member's unique ticket number was printed (along with the survey URL) in each letter and e-mail sent to that individual. A member could not access the Web survey without using his or her ticket number.

Description of Letters

Letters were printed with the record's unique MIC listed in the address field and on the lower right corner of the letter. Letters were folded and machine inserted into window envelopes

⁹ Ticket numbers are eight alpha numeric characters generated at random.

and sent by first-class mail. Depending on the mailout size, the letters were machine or hand inserted into envelopes, metered if necessary, and sent by first-class mail.

The status of each mailing was tracked throughout the data collection so that address-correction information could be incorporated into all relevant mailings. When a mail piece came back PND, the next mail piece was sent to a new address (if one could be obtained during the mailing period). For all mail pieces that came back PND, re-mails were completed if a newer/updated address could be found.

DMDC provided the operations contractor with the text, letterhead and signature for the cover letters, and the text for the e-mails. These letters explained why the survey was being conducted, how the survey information would be used, and why participation was important (Appendix B for copies of the letters and e-mails.) The letters were approved and printed on letterhead from the Federal Voting Assistance Program (FVAP). The letters were signed by the Director of the FVAP, Robert Carey.

The letterhead was printed in red and blue; the Director's signature was printed in black. The text and recipient information of all letters were printed in black. When a UVAO name was available from an address update, letters were addressed Dear [Rank] [Last name]. A generic salutation of Dear Unit Voting Assistance Officer was used on letters when a name was not available. The recipient information was used as the address block for the window envelope.

Mailouts

Table 5 lists the mailing dates and return results for each of the mailouts and re-mailings. For the pre-notification mailing, a letter was inserted into a #10 window envelope. The letter notified all eligible sample members that they had been selected for this Web survey and encouraged their participation. The Announcement letter was mailed to 9,588 sample members on December 3, 2010.

A first reminder mailing consisting of a letter inserted into a #10 envelope was sent on December 20, 2010 to 8,808 sample members who have not returned a completed survey. The letter thanked sample members for completing the survey if they had done so, and reminded them to complete the survey if they had not.

The second reminder letter was sent to 8,459 sample members on December 28, 2010. The letter again thanked sample members for completing the survey if they had done so, and reminded them to complete the survey if they had not.

The third reminder letter was sent to 7,866 sample members on January 7, 2011. The letter again thanked sample members for completing the survey if they had done so, and reminded them to complete the survey if they had not.

The fourth reminder letter was sent to 7,073 sample members on January 20, 2011. The letter again thanked sample members for completing the survey if they had done so, and requested them to complete the survey.

Table 5.
Mailing Timeline and Return Results

Mailing Numbers and Groups	Print File Creation Date*	Mail Date	Number Sent	Number of PNDs
Announcement	11/1/10	12/3/10	9,588	949
Reminder 1	12/16/10	12/20/10	8,808	730
Reminder 2	12/23/10	12/28/10	8,459	613
Reminder 3	1/5/11	1/7/11	7,866	444
Reminder 4	1/18/11	1/20/11	7,073	306

* Print file creation date: This is the date records were identified for inclusion in the mailing and written to a print file.

E-mail was also used to communicate with sample members. There was one source for e-mail addresses. Each sample member had the opportunity to provide up to two personal e-mail addresses on the survey Internet site prior to start of the survey. Table 6 below shows the percent of sample members for whom we had at least one valid e-mail by Service.

Table 6.
E-mail Address Availability by Service

	Army	Navy	Marine Corps	Air Force	Coast Guard	Total
Valid address	25%	29%	4%	34%	8%	5%
No valid address	75%	71%	96%	66%	92%	95%

The first e-mail communication was a Reminder to non-responders. Two additional e-mail Reminders were sent throughout the survey field period. Table 7 lists the e-mail dates and e-mail addresses bounced. E-mail addresses “bounced” identifies sampled individuals who had an e-mail address but the address was invalid at the time the operations contractor attempted contact. This is analogous to a postal PND. E-mail address “sent” is not the same as e-mail received. It is analogous to the non-PND return experienced during a mailed survey. It is not known if the mail was delivered to the intended individual, only that it was not returned.

Table 7.
E-mail Communication Timeline

E-mail Messages	E-mail Drop Date	Number Sent	Number Bounced
Reminder 1	12/17/10	105	2
Reminder 2	1/21/11	43	1
Reminder 3	2/2/11	106	3

Processing Returned Surveys

Once a respondent completes an online survey, data are stored in an indexed file on the Web (data) server. Prior to providing each dataset to DMDC, the operations contractor copied the indexed file to their internal network using FTP protocol.

The data are then converted to a sequential format, and the validate program reads and loads the data to the dataset.

DMDC Coding Scheme

To convert the raw data into the item scores that appear in the basic survey data file, DMDC provided the operations contractor with an annotated copy of the survey form (contained in Appendix C) and the coding notes (Appendix D). Every attempt is made to capture all information from completed surveys and preserve the data so that secondary analysts can later create variables that were not anticipated by DMDC researchers. To accomplish these goals, DMDC subscribes to a variety of coding conventions for all of its surveys. See Appendix D for in-depth coverage of these coding conventions.

DMDC uses “forward” coding when coding inconsistent answers in items with skip patterns. Data on the starting question accepted as marked and data for the items within the skip pattern are edited to be consistent with the starting question. However, an unedited version of each item is preserved in a full survey dataset. By preserving the unedited data, recoding can be done if ever required.

Coding or Keying Open-Ended Items

This survey contained four open-ended item. The original text responses from the “other specify” response options were captured verbatim into a SAS[®] data set that is linked by the unique identification number to the survey data. Text data in the SAS[®] files for the open-ended item were spell-checked, and profanity, proper names, and locations were replaced with “[EXPLETIVE],” “[NAME],” and “[LOCATION]” respectively.

For all other-specify and open-ended items, the Web data file contains a flag indicating whether the respondent wrote anything in response to the item. Discrepancies existed where the Web data indicated presence of a comment but no comment was there.

Fifty-record Check

A few days after the survey opened on the Web, the operations contractor performed a “50-record check” in order to test the coding scheme. The operations contractor supplied DMDC with a dataset with at least 50 records for review. DMDC checked the resulting data to determine if there were any unanticipated problems in the coding procedures (e.g., respondents were consistently answering in an unexpected manner). Minor corrections to these procedures were necessary as a result of this check and were reviewed by DMDC prior to production of the initial SAS[®] dataset. At the completion of the 50-record check, the operations contractor compiled the full set of returned surveys. The data were then cleaned and edited.

Survey Analysis Files

This section (a) provides an overview of requirements for analysis of the data, (b) documents the structure of survey analysis files created for the 2010 PEV4 survey, (c) describes the assembly of the analysis files, and (d) provides an overview of the variables in the survey analysis files.

Estimation

Data were weighted using the industry standard two-stage process. This form of weighting produces survey estimates of population totals, proportions, and means (as well as other statistics) that are representative of their respective populations. Unweighted survey data, in contrast, are likely to produce biased estimates of population statistics. The two-stage process of weighting consists of the following steps:

- *Adjustment for selection probability*—Probability samples are selected from lists and each member of the list has a known nonzero probability of selection. In this study, all units with 25 or more permanently assigned active duty members were selected, so the base weight given to respondents was 1.
- *Adjustments for nonresponse*—Some sampled members do not respond to the survey. Suppose only half the members completed and returned a survey. Because the unweighted response set size would only be 50% of the total, weights are needed to project the response set up to the subgroup population total. In this example, the base weight of 1 is multiplied by the reciprocal of the nonresponse rate of 2 to create a new weight of 2. The weighted sample sums to the subgroup population total.

Analyzing the dataset with the proper use of the appropriate eligibility indicator (ELIGFLGW) and analysis weight (FINALWGT) in standard statistical programs will result in accurate point estimates but will not result in accurate variance estimates.

Data Structure

Care was taken in the preparation of the survey analysis files to provide access to privileged data from the survey with sufficient information for accurate estimations, while meeting requirements for participant and non-participant anonymity. As described below, some

detailed variables have been deleted from the basic survey files either because (a) they are typically needed only to analyze survey methods and not needed to analyze the survey data or (b) they provide too great a chance of identifying an individual. For the latter reason, some demographic variables are available on basic survey files only in a collapsed version.

In addition to a basic survey file, a full survey file (containing a more complete set of variables than the basic survey file) was prepared for internal DMDC use. Both files were generated as SAS system files. An ASCII (Operating System or OS) flat file and SPSS portable file were prepared from the basic survey SAS system file. All file names are indicated in Table 8.

Table 8.
Analysis File Names

Type of File	File Name
Basic-release File – SAS	PEV41001P.sas7bdat
Basic-release File – SPSS	PEV41001P.sav
Confidential File – SAS	PEV4O1001C.sas7bdat
Basic-release File – OS	PEV4O1001P.dat

The structure of the full survey file is shown in Figure 3. The full survey file contains the basic survey file plus additional confidential variables.

All variables in the full survey file are documented in this report. Appendixes E and F list all variables with a notation to indicate which variables are confidential, and show where each variable is documented. Intermediate weighting variables that appear only in the full survey file are documented in DMDC (2011a). Variables that appear in collapsed form in the basic survey part of the file and in a fuller version only in the full survey file are discussed later.

Analyses

Both the full survey file and basic survey file contain 9,914 records, one for every sampled individual.

As depicted in Figure 3, these records can be divided into 3 subgroups. The *Non-response unweighted* subgroup includes all records where no usable Web response was received or no information was received to indicate ineligibility (n=7,948).

Individuals assigned to the *Ineligible weighted* subgroup either contacted the survey operations contractor or indicated on the survey that they were ineligible to take the survey. Sample members who returned a completed survey were assigned to the *Eligible weighted* subgroup.

To analyze the Web responses, use the analytic weight, FINALWGT, with the file subset by ELIGFLGW.

Figure 3.
The Structure of the Full Survey File

Subgroups	Basic Survey File	Confidential and Detailed Methodological Variables	Web Eligibility Flag Value and Number of Records
Non-Respondents			ELIGFLGW=3 n=7,948
Ineligible weighted			ELIGFLGW=2 n=2
Eligible Respondents			ELIGFLGW=1 n=1,964

Note. The shaded portion represents the subset of the data typically required for analysis

Variables in the Survey Analysis Files

Basic Survey File

The variables in the basic survey file fall into five categories: (1) derived from survey responses, (2) created by the operations contractor to document survey operations, (3) created to analyze the weighted dataset, (4) created by DMDC for analysis, and (5) extracted from administrative personnel records. Variables are grouped in these categories in Appendix F.

Information Gathered on the Survey. These variables came directly from the survey or were constructed using only information from the survey. There is at least one variable for every item in the survey except for a few items that had to be removed to preserve confidentiality. The annotated questionnaire (see Appendix C) contains the item names, the values used to code the pre-specified alternatives, and references to applicable coding notes in Appendix D.

Although the first part of Appendix D extensively documents the conventions that DMDC uses to name survey variables, a brief overview of the naming convention is also given here. In general, the survey-derived variables can be classified as variables that begin with either “SR”, “X” or generic names.

All the variables assigned to the survey names correspond to the questionnaire items content. When possible, “X” is reserved to create special crossing (marginal) variables for key

analyses. “X” variables typically involve imputation for missing data and, like “SR” variables, are intended to be consistent across DMDC surveys.

The “SR” variables are a set of primarily demographic items that are identically named across all DMDC surveys. The “SR” serves as a mnemonic for self-report, with the remainder of the name indicating the data being collected. For example, “SRAGEGP” is the variable name for the item that asks sample members what was their age on November 2, 2010. Although all survey data are self-reported, the “SR” is used to distinguish survey-reported information from DMDC-provided information (e.g., “SRAGEGP” from the survey versus “AGE” from DMDC databases).

Variables for Analysis. Certain demographic variables, including some information collected on the survey, had to be recoded to preserve the anonymity promised to survey respondents and non-respondents. For example, TECHACCESSAR is a recode of TECHACCESSA. An “R” as the last letter of a variable listed in Appendixes E and F is an indication that the variables may have been recoded to create special analysis variables and that a more complete variable is available only on the full survey analysis file.

Certain key demographic variables were constructed for DMDC analyses. These analytic variables, starting with “X,” are based primarily on self-reported information from the survey. Typically, where the self-reported information is missing on important demographics (e.g., service, age) data is imputed from member’s administrative record.

The SAS code used in constructing the analytic variables are included in Appendix I. Some variables are only contained in the full survey file because of the possibility of them being used in combination with other variables to identify individuals.

Appendix I also documents many of the decisions made in the analysis of data. For a large number of survey items, analysts must make decisions on the treatment of special codes used to indicate inconsistencies in the survey data.

Information on Sampling and Record Data. Most of the variables used in sample design and selection are too detailed to be in the basic survey file (see the later section on confidential variables). The DMDC-provided identification number, PEV41001ID, is unique, and is used to identify responses as they are processed.

Information on Weighting. Derivation of weights is discussed in detail in DMDC (2011a).

ELIGFLGW	Web and Paper: Complete Eligible Flag
FINALWGT	Web and Paper: Final Weight with Non-response and Postratification Adjustments
V_STRAT	Weighting Class Strata [25 or more usable responses]
TOTAL	Weighting Class Strata Totals Based on Sampling Frame Counts

Full Survey File

In addition to variables on the basic survey file, the full survey file also has five additional categories of variables: (1) the uncensored version of survey items that appear in a collapsed form in the basic survey section, (2) the uncensored version of key demographic variables used in analyses that appear in a collapsed form in the basic survey section; (3) detailed variables created by the operations contractor to document operations, (4) detailed variables used in sampling, and (5) detailed variables used in weighting. Variables are grouped in these categories in Appendixes E and F.

Information Gathered on the Survey-Confidential Variables. This section of the full survey file contains the original full version of survey variables that had to be recoded for the basic survey file to preserve confidentiality. To the extent possible, recoded versions of these variables are in the basic survey file section for variables constructed for analysis.

Variables for Analysis-Confidential. This section of the full survey file contains the original full version of analytic variables constructed by DMDC. To the extent possible, recoded versions of these variables are in the basic survey file section for variables constructed for analysis.

Variables Information on Operations-Confidential. This section of the full survey file contains operational variables created by the operations contractor. These variables are useful for methodological studies and/or were used in determining eligibility and response status. The identifying variables describe how the record was processed once a survey was returned. The classification variables describe how individual sample member's records were grouped and indexed. SAMP_DC indicates the sample disposition status of a sample member (i.e., survey returned, not locatable, or no return). Several other classification variables were used to categorize a survey's final disposition.

Variables Information on Sampling and Record Data-Confidential. This section of the full survey file contains administrative file variables and constructed variables used in determining the sampling design. It also includes the sampling strata identifiers and counts.

Variables Information on Weighting-Confidential Variables. This section of the full survey file contains variables used in analysis of non-response and in the construction of the weights.

Using Appendix G

Regardless of whether analysts use all or only portions of the dataset, all analysts should replicate the results found in the tables in Appendix G. It is only by replicating these results that analysts can be sure that they are reading the data correctly. An annotated example of an Appendix G table is listed in Figure 4, which may not reflect actual results.

Figure 4.

¹¹ 9914	100.0	TOTALS		

¹²TRAININGAU = TRAININGA, TRAININGBU = TRAININGB, TRAININGCU = TRAININGC,
TRAININGDU = TRAININGD, but are unedited for forward coding of non-applicable
or missing response values. Here is how they are edited: If TRAININGSK = 1
then do; TRAININGA = .N; TRAININGB = .N; TRAININGC = .N; TRAININGD = .N; end;
.N = (Not Applicable)

1. Codebook title and item text. The codebook title is the same for every table in Appendix G of this codebook. It lists both the general study and the specific survey form being summarized. If applicable, the indented text under the title presents the verbatim question or instructions that accompany a specific item in the survey.

2. Variable name. The variable name for a survey item is up to sixteen characters in length and corresponds to the variable name that is used in the SAS[®]-based, basic survey data file. The conventions for naming survey-derived variables are documented in Appendix D. Appendix F contains a full listing of the basic survey file variables, as well as short descriptions of what the variables document.

3. Survey item text. For survey items, this text is the verbatim item wording. For other variables, this text provides a verbal description of the variable.

4. Location of the item on the OS data file. This block provides the location of the variable on the OS (ASCII) data file. The OS data block documents (a) the starting and ending column numbers where the data are stored and (b) the number of columns that the data occupy.

5. SAS[®] data file information. This block indicates format name, variable type, length and informat of the data in the SAS[®] data file. The last block indicates the informat appropriate for reading the data from the OS data file.

6. Counts of item value responses. This column indicates the number of sample members who fall into the category corresponding to each value for the variable. The count provided for each variable value should correspond exactly to those that analysts would obtain when running unweighted frequencies on all 9,518 records in the accompanying database. Before running complex statistical analyses, analysts are encouraged to re-create these frequency tables. Re-creating the counts minimally ensures that the data are being correctly read by the analysts' computers and programs.

7. Respondent percentages for each value. This column indicates the percentage of sample members who marked each variable value. The percentages are calculated by dividing the row value in the "FREQ" column by the total listed at the bottom of the "FREQ" column. The percentages provided for each variable value should correspond exactly to those that analysts would obtain when running unweighted frequencies on all 9,914 records in the accompanying database.

8. Response OS values. This column presents the OS (ASCII) code for the actual or re-coded response values for each survey item. Further details on the values in this column are found in either the annotated survey form or in Appendix D. For example, all negative values are found in Appendix D.

9. Response SAS[®] values. This column presents the SAS[®] code for the actual or re-coded response values for each survey item. Further details on the values in this column are found in either the annotated survey form or in Appendix D. For example, all negative values are found in Appendix D.

10. Explanation of the item value codes. This column presents brief verbal explanations of the OS and SAS® coding for each survey item. If the coded information corresponds to survey response alternatives, the text in the table is the verbatim response from the survey instrument. More detailed explanations are found in either the annotated survey form or in Appendix D.

11. Total of response frequencies and percents. The number appearing at the bottom of the “FREQ” column is the total number of sample members in the basic survey file. This number is the same for every table in this codebook. That is, every sample member in the database is accounted for on every variable even if the variable indicates only that the information was missing for that sample member. The number appearing at the bottom of the “PERCENT” column is typically 100.0. Rounding error, however, occasionally causes the total percentage to be slightly above or below 100.0.

12. Messages to analysts. The messages alert analysts to situations specific to a variable including (a) rounding errors resulting in a total percentage other than 100 percent; (b) the variable having values that are “too numerous to list;” (c) extraction of the variable from another specified database; (d) creation of the variable from two or more variables specified in the message; and (e) further clarification of the survey item corresponding to the variable.

13. Codebook page number. This is the Appendix G page number corresponding to a specific variable. Appendix F identifies the page number in Appendix G where the variable can be found.

Appendix A. Questionnaire

2010 Post-Election Survey of Unit Voting Assistance Officers

BACKGROUND INFORMATION

1. On November 2, 2010, were you assigned as a Unit Voting Assistance Officer (UVAO) in any of the military Services?

- Yes
- No

***** Page Break *****

BACKGROUND INFORMATION

2. On November 2, 2010, in which Service were you assigned as a Unit Voting Assistance Officer (UVAO)?

- Army
- Navy
- Marine Corps
- Air Force
- Coast Guard

***** Page Break *****

BACKGROUND INFORMATION

3. On November 2, 2010, were you serving in the military?

- Yes, on active duty
- Yes, as a member of the National Guard or Reserve in a full-time, active duty program (AGR/FTS/AR)
- Yes, as a traditional National Guard/Reserve member (e.g., drilling unit, IMA, IRR)
- No, I was a federal civilian
- No, I was a federal contractor

***** Page Break *****

BACKGROUND INFORMATION

4. What was your paygrade on November 2, 2010?

- | | | | |

- GS/GM-15 or above

***** Page Break *****

BACKGROUND INFORMATION

6. On November 2, 2010, were you stationed in the United States or overseas? *If you were stationed on board a ship, indicate whether your homeport country was the United States or overseas.*

- United States (including U.S. territories)
- Overseas

***** Page Break *****

BACKGROUND INFORMATION

Please specify in which overseas country you were stationed. *If on board a ship, specify the homeport country.*

***** Page Break *****

BACKGROUND INFORMATION

7. As of November 2, 2010, how long had you been stationed in this country?

- Less than 6 months
- 6 months to less than 1 year
- 1 year to less than 2 years
- 2 years to less than 3 years
- 3 years or more

***** Page Break *****

BACKGROUND INFORMATION

8. What was your age on November 2, 2010?

- 18 to 24 years old
- 25 to 29 years old
- 30 to 34 years old
- 35 to 44 years old
- 45 years old or older

***** Page Break *****

BACKGROUND INFORMATION

9. Are you currently assigned to the same Unit Voting Assistance Officer (UVAO) position that you held on November 2, 2010?

- Yes
- No

***** Page Break *****

BACKGROUND INFORMATION

10. How long had you been a Unit Voting Assistance Officer (UVAO) in the assignment you held on November 2, 2010?

- Less than 3 months
- 3 months to less than 6 months
- 6 months to less than 1 year
- 1 year or more

***** Page Break *****

BACKGROUND INFORMATION

11. Had you ever served as a Unit Voting Assistance Officer (UVAO) before your most recent UVAO assignment?

- Yes, once before
- Yes, twice before
- Yes, three or more times before
- No

***** Page Break *****

BACKGROUND INFORMATION

12. As of November 2, 2010, how long had you served as a Unit Voting Assistance Officer (UVAO), including previous service?

- Less than 6 months
- 6 months to less than 1 year
- 1 year to less than 2 years
- 2 years to less than 3 years
- 3 years or more

***** Page Break *****

TRAINING

13. During the Unit Voting Assistance Officer (UVAO) assignment period that includes November 2, 2010, did you receive any training to prepare you for performing your UVAO duties?

- Yes
- No

***** Page Break *****

TRAINING

14. If you received any of the following types of training, how useful was each one in preparing you for performing your Unit Voting Assistance Officer (UVAO) duties? *Mark one answer for each item.*

	Very useful	Useful	Somewhat useful	Not very useful	Not at all useful	Did not receive this training
a. Federal Voting Assistance Program's (FVAP) onsite UVAO training workshop	<input type="checkbox"/>					
b. FVAP's online/CD ROM training for UVAOs	<input type="checkbox"/>					
c. Continuity Folder	<input type="checkbox"/>					
d. Training provided by your military Service	<input type="checkbox"/>					

***** Page Break *****

VOTING ASSISTANCE

15. As of November 2, 2010, approximately how many permanent military members were assigned to the unit(s) where you served as a Unit Voting Assistance Officer (UVAO)?

- Less than 50
- 50 to 99
- 100 to 149
- 150 to 199
- 200 to 249
- 250 or more

***** Page Break *****

VOTING ASSISTANCE

16. As of November 2, 2010, how many Unit Voting Assistance Officers (UVAOs) and assistant UVAOs were assigned to the unit(s) where you served as a UVAO? *Please include yourself in the total number.*

- 1
- 2
- 3
- 4
- 5
- 6 or more

***** Page Break *****

VOTING ASSISTANCE

17. During 2010, approximately how many permanent military members from your unit(s) did you provide with voting assistance in the primaries and the November 2 general election?

- None
- 1 to 9
- 10 to 24
- 25 to 99
- 100 or more

***** Page Break *****

VOTING ASSISTANCE

18. During 2010, approximately how many military spouses and dependents did you provide with voting assistance in the primaries and the November 2 general election?

- None
- 1 to 9
- 10 to 24
- 25 to 99
- 100 or more

***** Page Break *****

VOTING ASSISTANCE

19. Since Labor Day (September 6, 2010), approximately how many hours per week have you spent on Unit Voting Assistance Officer (UVAO) activities?

- Less than 1 hour per week
- 1 hour to less than 2 hours per week
- 2 hours to less than 3 hours per week
- 3 hours to less than 4 hours per week
- 4 hours or more hours per week

***** Page Break *****

VOTING ASSISTANCE

20. During 2010, how satisfied or dissatisfied were you with the amount of support you received from each of the following groups in helping you perform your Unit Voting Assistance Officer (UVAO) duties? *Mark one answer for each item.*

	Very dissatisfied	Dissatisfied	Neither satisfied nor dissatisfied	Satisfied	Very satisfied	Did not receive any support from this group	Did not have an Installation Voting Assistance Officer
a. Federal Voting Assistance Program (FVAP)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
b. Your military Service	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

***** Page Break *****

VOTING ASSISTANCE

21. During 2010, what was the most frequent form of voting assistance you were asked to provide as a Unit Voting Assistance Officer (UVAO)? *Mark one answer.*

- Providing paper or PDF copies of voting forms (e.g., Federal Post Card Applications [FPCAs] or Federal Write-In Absentee Ballots [FWABs]) to voters
- Directing voters to the Federal Voting Assistance Program's (FVAP) Automated Online Assistant to complete voting forms (e.g., FPCAs or FWABs)
- Helping voters complete paper or PDF copies of voting forms (e.g., FPCAs or FWABs)
- Helping voters complete voting forms (e.g., FPCAs or FWABs) using FVAP's Automated Online Assistant
- Electronically transmitting and/or receiving election materials
- Helping voters determine their legal residency and/or voting jurisdiction
- Providing addresses of local election officials
- Explaining state voting procedures and/or election deadlines to voters

COMMENTS

45. Thank you for participating in this Post-Election Voting survey. There are no more questions on this survey. If you would like to know when and where the results of this and other DMDC surveys are available, follow DMDC Facebook (<http://www.facebook.com/go2dmdc>) or Twitter (<http://www.twitter.com/dmdc>). Please provide any comments or questions you have regarding this questionnaire, the Federal Voting Assistance Program (FVAP), or your most recent assignment as a Unit Voting Assistance Officer (UVAO) in the space provided. Your comments will be viewed and considered as policy deliberations take place. Any comments you make on this questionnaire will be kept confidential, and no follow-up action will be taken in response to any specifics reported. Your feedback is useful and appreciated.

|||||

Dear Unit Voting Assistance Officer of CG STA MY TOWN:

The Federal Voting Assistance Program (FVAP), in cooperation with Defense Manpower Data Center (DMDC), has selected your unit to participate in FVAP's *2010 Post-Election Voting Survey of Unit Voting Assistance Officers*. This survey is conducted after every federal election to fulfill the reporting requirements of the Uniformed and Overseas Citizens Absentee Voting Act of 1986 (UOCAVA), as amended by the 2010 Military and Overseas Voter Empowerment Act (MOVE). These surveys help FVAP improve the absentee voting process for military personnel and overseas citizens by identifying problems they may have experienced and developing ways to address those problems in future elections.

Please update your contact information, such as your name, preferred postal address, and e-mail address, today to receive project notifications. To update your contact information, go to <https://www.dmdc.osd.mil/dodsurvey> and enter your **Ticket Number: XXXXXXXX**. This site can be accessed from any computer with Internet access. The survey will be available at the same Web site after November 2, 2010. The survey is *Official Business*, which means you will be able to complete the survey at your duty station using government equipment. Be sure to enter the address into the address box of your Internet browser, not a search engine (e.g., Google). If you log on from a non-DoD computer, you may be prompted with a security alert. If so, follow the instructions and proceed to DoD's secure survey Web site.

If you have any questions regarding how to complete this survey or troubleshooting issues, you may contact us by calling our Survey Processing Center at 1-800-881-5307, e-mailing us at UVAOSurvey@osd.pentagon.mil. Be sure to include your Ticket Number in all communications.

DMDC has set up a telephone line for anyone who wishes to verify the survey's legitimacy. Please call 426-7427 from any DoD or other government telephone with DSN for a prerecorded list of surveys currently being conducted by DMDC. If you do not have access to a DSN telephone line, you can call 1-703-696-7427.

If you have any questions or suggestions about this survey, please call toll-free 1-800-438-VOTE. For international callers, visit www.fvap.gov to look up the toll-free number for your country. You may also e-mail FVAP at vote@fvap.gov

Thank you for your participation in this important study.

Sincerely,

Robert Carey
Director, Federal Voting Assistance Program

Dear Unit Voting Assistance Officer of CG STA MY TOWN:

The Federal Voting Assistance Program (FVAP), in cooperation with Defense Manpower Data Center (DMDC), recently requested your participation in FVAP's *2010 Post-Election Voting Survey of Unit Voting Assistance Officers*. The post-election survey is conducted after every federal election to fulfill the reporting requirements of the Uniformed and Overseas Citizens Absentee Voting Act of 1986 (UOCAVA), as amended by the 2010 Military and Overseas Voter Empowerment Act (MOVE). Although the survey is completely voluntary, the information and opinions you provide are critically important in evaluating and improving the absentee voting process for our military personnel and overseas civilians.

To complete the survey online, please go to the following Web site:
<https://www.dmdc.osd.mil/dodsurvey> and enter the following **Ticket Number: XXXXXXXX**

If you have questions regarding how to complete this survey or troubleshooting issues, you may contact us by calling our Survey Processing Center at 1-800-881-5307, e-mailing us at **UVAOSurvey@osd.pentagon.mil**. Please be sure to include your Ticket Number in all communications. If you do not wish to participate in this survey or to receive reminders about this survey, you may remove yourself from the mailing list by contacting the Survey Processing Center. Be sure to include your Ticket Number in all communications.

DMDC has set up a telephone line for anyone who wishes to verify the survey's legitimacy. Please call 426-7427 from any DoD or other government telephone with DSN for a prerecorded list of surveys currently being conducted by DMDC. To: Leslie Sample
Subject: 2010 Post-Election Voting Survey of Unit Voting Assistance Officers (HXXXXXXXX)

Dear SERGEANT LESLIE SAMPLE:
Your Ticket Number: HXXXXXXXX

If you have already taken the time to complete the "2010 Post-Election Voting Survey of Unit Voting Assistance Officers," thank you. If you have not had a chance to do so, please try to take the time today. While participation is voluntary, the information and the opinions you provide are very important to improving the absentee voting process. The Website for the survey is: <https://www.dmdc.osd.mil/dodsurvey>

Simply click on this address to go directly to the Web site, or you can "copy and paste" this address into the Web address box of your Internet browser. Once at the Web site, you will need to enter the following Ticket Number: HXXXXXXXX

If you have partially completed the survey, but have not clicked the "Submit Button," please go back, log onto the Web site, complete as many items as you can, and submit the survey to us. Only aggregate results will be reported.

If you have any questions about this survey or would like more information on the FVAP Post-Election Voting Survey Program, contact FVAP toll-free at 1-800-438-VOTE or e-mail vote@fvap.gov

If you cannot access the Web site or have other technical issues, please call our Survey Processing Center toll-free at 1-800-881-5307, e-mail UVAOSurvey@osd.pentagon.mil or send a fax to 1-763-268-3002. If you do not wish to participate or to receive additional reminders about this survey, you may remove yourself from our mailing list by replying to this message. Be sure to include your Ticket Number and the words, "Please remove me from this survey's mailing list" in the body of the message.

For your convenience, DMDC has set up a telephone line for anyone who wishes to verify the survey's legitimacy. Call 426-7427 from any DoD or other government telephone with DSN for a list of current data collections by licensed DMDC surveys. If you do not have access to a DSN telephone line, you can call 1-703-696-7427. This prerecorded list does not include surveys being conducted by other DoD offices. In accordance with DoD Instruction 8910.01, all data collection in the Department must be licensed and show that license as a Report Control Symbol (RCS) with an expiration date. The RCS for this survey is RCS# DD-P&R(AR)1918, which expires 09/30/2011.

Thank you in advance for completing this survey.

To those who have completed the "2010 Post-Election Voting Survey of Unit Voting Assistance Officers," thank you. If you have not had a chance to complete the survey, please try to take the time to take the survey before the Web site closes on December 28, 2010. Your opinions are very important. While your participation is very important to the success of the project, it is entirely voluntary.

The Web site for the survey is: <https://www.dmdc.osd.mil/dodsurvey>

Simply click on this address to go directly to the Web site, or you can "copy and paste" this address into the Web address box of your Internet browser. Once at the Web site, you will need to enter the following Ticket Number: HXXXXXXXX

If you have partially completed the survey, but have not clicked the "Submit Button," please go back, log onto the Web site, complete as many items as you can, and submit the survey to us. After December 28, we will consider whatever items you have completed to be your intended response.

If you have any questions about this survey, or would like more information on the FVAP Post-Election Voting Survey Program, contact FVAP toll-free at 1-800-438-VOTE or e-mail vote@fvap.gov

If you cannot access the Web site or have other technical issues, please call our Survey Processing Center toll-free at 1-800-881-5307, e-mail UVAOSurvey@osd.pentagon.mil or send a fax to 1-763-268-3002. If you do not wish to participate or to receive additional reminders about this survey, you may remove yourself from our mailing list by replying to this message. Be sure to include your Ticket Number and the words, "Please remove me from this survey's mailing list" in the body of the message.

For your convenience, DMDC has set up a telephone line for anyone who wishes to verify the survey's legitimacy. Call 426-7427 from any DoD or other government telephone with DSN for a list of current data collections by licensed DMDC surveys. If you do not have access to a DSN telephone line, you can call 1-703-696-7427. This prerecorded list does not include surveys being conducted by other DoD offices. In accordance with DoD Instruction 8910.01, all data collection in the Department must be licensed and show that license as a Report Control Symbol (RCS) with an expiration date. The RCS for this survey is RCS# DD-P&R(AR)1918, which expires 09/30/2011.

Thank you in advance for completing this survey.

SVAO email 1

Send January 4, 2011

E-Mail Summary of Returns

[This email will be sent to the Service Voting Assistant Officer, who is being asked to contact the individual UVAO non-respondents in the unit he/she oversees and to encourage those individuals to participate in the survey.]

Subject: [SERVICE] SVAO Assistance of FVAP UVAO Survey

Dear [SVAO Name]:

As Service Voting Action Officers (SVAO), you know the importance of the “2010 Post-Election Voting Survey of Unit Voting Assistance Officers” survey in collecting data about the UVAO program. The monthly SVAO meetings have greatly enhanced the survey. As discussed in the meetings, your assistance in contacting Unit Voting Assistance Officers (UVAOs) is greatly appreciated and we thank you. You are helping to make this survey a success.

Attached is a summary of your Service’s units who have not yet responded.

We ask that you contact these UVAOs and encourage them to participate to ensure the highest quality data and most accurate results possible.

If the UVAO has not received the survey notice, please ask him/her to contact our Survey Processing Center at 1-800-881-5307 to update the contact information we have on record, and we will send out the survey notice through postal mailing or e-mail. To assist the Survey Processing Center in identifying the Unit’s record, the UVAO will need to provide their Service, installation, and unit.

If you have questions regarding how you can support the survey data collection efforts, please contact us by calling our Survey Processing Center or by e-mailing us at UVAOSurvey@osd.pentagon.mil.

Thank you very much.

SVAO email 2

Send January 11, 2011

E-Mail Summary of Returns

[This email will be sent to the Service Voting Assistant Officer, who is being asked to contact the individual UVAO non-respondents in the unit he/she oversees and to encourage those individuals to participate in the survey.]

Subject: [SERVICE] SVAO Assistance of FVAP UVAO Survey

Dear [SVAO Name]:

Last week, we sent you a list of your Service's units which have yet to respond to the "2010 Post-Election Voting Survey of Unit Voting Assistance Officers" survey. We hope that you are contacting these UVAOs, making them aware of the survey and encouraging them to participate. UVAO survey participation is voluntary. As you may know, Service participation with this survey is an item for Inspector General review, so it is important to all of us to maximize participation.

Attached is an updated summary of your Service's units who have not yet responded.

While this survey is voluntary, we ask that you contact these UVAOs and encourage them to participate to ensure the highest quality data and most accurate results possible. So you can track your progress, we will send you an updated file next week.

Please contact the UVAO and provide them with their ticket number and the link to the survey site: <https://www.dmdc.osd.mil/dodsurvey>

If you have questions regarding how you can support the survey data collection efforts, please contact us by calling our Survey Processing Center or by e-mailing us at UVAOSurvey@osd.pentagon.mil.

Thank you very much.

SVAO email 3 – FVAP

Send January 18, 2011

E-Mail Summary of Returns

[This email will be sent to the Service Voting Assistant Officer, who is being asked to contact the individual UVAO non-respondents in the unit he/she oversees and to encourage those individuals to participate in the survey.]

Subject: [SERVICE] SVAO Assistance of FVAP UVAO Survey

Dear [SVAO Name]:

We are in the final stretch of data collection for "2010 Post-Election Voting Survey of Unit Voting Assistance Officers" survey. We hope that you are contacting these UVAOs, making them aware of the survey and encouraging them to participate. In fact, FVAP directly assesses the effectiveness of the programs through this and the other surveys. UVAO survey participation is voluntary. You are helping to make this survey a success. The surveys and individual Service participation are items for Inspector General review.

FVAP appreciates your active participation in the monthly SVAO meetings, and your inputs have significantly improved the survey. However, one of the criticisms the Government Accountability Office leveled against our survey program in the past is low survey response rates. To date, only XX.X% of Unit Voting Assistance Officers (UVAOs) have responded to the post-2010 Election Survey. While this survey is voluntary, we ask that you contact these UVAOs and encourage them to participate to ensure the highest quality data and most accurate results possible. The survey will close on Monday January 31, 2011.

Attached is an updated summary of your Service's units who have not yet responded.

Please contact the UVAO and provide them with their ticket number and the link to the survey site: <https://www.dmdc.osd.mil/dodsurvey>

If you have questions regarding how you can support the survey data collection efforts, please contact us by calling our Survey Processing Center or by e-mailing us at UVAOSurvey@osd.pentagon.mil.

Thank you very much.

Appendix C.
Annotated Questionnaire

2010 Post-Election Survey of Unit Voting Assistance Officers

BACKGROUND INFORMATION

SRVAO

1. On November 2, 2010, were you assigned as a Unit Voting Assistance Officer (UVAO) in any of the military Services?

- 2 Yes
1 No

BACKGROUND INFORMATION

NOT ([SRVAO] = "No")

SRSVC

2. On November 2, 2010, in which Service were you assigned as a Unit Voting Assistance Officer (UVAO)?

- 1 Army
2 Navy
3 Marine Corps
4 Air Force
5 Coast Guard

BACKGROUND INFORMATION

NOT ([SRVAO] = "No")

MILSERVE

3. On November 2, 2010, were you serving in the military?

- 1 Yes, on active duty
2 Yes, as a member of the National Guard or Reserve in a full-time, active duty program (AGR/FTS/AR)
3 Yes, as a traditional National Guard/Reserve member (e.g., drilling unit, IMA, IRR)
4 No, I was a federal civilian
5 No, I was a federal contractor

BACKGROUND INFORMATION

NOT ([SRVAO] = "No") AND ([MILSERVE] = "Yes, on active duty" OR [MILSERVE] = "Yes, as a member of the National Guard or Reserve in a full-time, active duty program (AGR/FTS/AR)" OR [MILSERVE] = "Yes, as a traditional National Guard/Reserve member (e.g., drilling unit, IMA, IRR)")

MILGRADE

4. What was your paygrade on November 2, 2010?

- | | | | |
|---------------------------------------|---------------------------------------|--|---|
| <u>1</u> <input type="checkbox"/> E-1 | <u>6</u> <input type="checkbox"/> E-6 | <u>10</u> <input type="checkbox"/> W-1 | <u>15</u> <input type="checkbox"/> O-1/O-1E |
| <u>2</u> <input type="checkbox"/> E-2 | <u>7</u> <input type="checkbox"/> E-7 | <u>11</u> <input type="checkbox"/> W-2 | <u>16</u> <input type="checkbox"/> O-2/O-2E |
| <u>3</u> <input type="checkbox"/> E-3 | <u>8</u> <input type="checkbox"/> E-8 | <u>12</u> <input type="checkbox"/> W-3 | <u>17</u> <input type="checkbox"/> O-3/O-3E |
| <u>4</u> <input type="checkbox"/> E-4 | <u>9</u> <input type="checkbox"/> E-9 | <u>13</u> <input type="checkbox"/> W-4 | <u>18</u> <input type="checkbox"/> O-4 |
| <u>5</u> <input type="checkbox"/> E-5 | | <u>14</u> <input type="checkbox"/> W-5 | <u>19</u> <input type="checkbox"/> O-5 |
| | | | <u>20</u> <input type="checkbox"/> O-6 or above |

BACKGROUND INFORMATION

NOT ([SRVAO] = "No") AND ([MILSERVE] = "No, I was a federal civilian")

CIVGRADE

5. What was your GS or GS equivalent paygrade on November 2, 2010?

- 1 GS-1
- 2 GS-2
- 3 GS-3
- 4 GS-4
- 5 GS-5
- 6 GS-6
- 7 GS-7
- 8 GS-8
- 9 GS-9
- 10 GS-10
- 11 GS-11
- 12 GS-12
- 13 GS/GM-13
- 14 GS/GM-14
- 15 GS/GM-15 or above

BACKGROUND INFORMATION

NOT ([SRVAO] = "No")

STATION

6. On November 2, 2010, were you stationed in the United States or overseas? If you were stationed on board a ship, indicate whether your homeport country was the United States or overseas.

- 1 United States (including U.S. territories)
- 2 Overseas

BACKGROUND INFORMATION

NOT ([SRVAO] = "No") AND ([STATION] = "Overseas")

STATIONSP

Please specify in which overseas country you were stationed. If on board a ship, specify the homeport country.

BACKGROUND INFORMATION

NOT ([SRVAO] = "No") AND ([STATION] = "Overseas")

HOWLONG

7. As of November 2, 2010, how long had you been stationed in this country?

- 1 Less than 6 months
- 2 6 months to less than 1 year
- 3 1 year to less than 2 years
- 4 2 years to less than 3 years
- 5 3 years or more

BACKGROUND INFORMATION

NOT ([SRVAO] = "No")

SRAGEGP

8. What was your age on November 2, 2010?

- 1 18 to 24 years old
- 2 25 to 29 years old
- 3 30 to 34 years old
- 4 35 to 44 years old
- 5 45 years old or older

BACKGROUND INFORMATION

NOT ([SRVAO] = "No")

CURRASGN

9. Are you currently assigned to the same Unit Voting Assistance Officer (UVAO) position that you held on November 2, 2010?

- 2 Yes
- 1 No

BACKGROUND INFORMATION

NOT ([SRVAO] = "No")

NCURRASGN

10. How long had you been a Unit Voting Assistance Officer (UVAO) in the assignment you held on November 2, 2010?

- 1 Less than 3 months
- 2 3 months to less than 6 months
- 3 6 months to less than 1 year
- 4 1 year or more

BACKGROUND INFORMATION

NOT ([SRVAO] = "No")

UVAOSERV

11. Had you ever served as a Unit Voting Assistance Officer (UVAO) before your most recent UVAO assignment?

- 4 Yes, once before
- 3 Yes, twice before
- 2 Yes, three or more times before
- 1 No

BACKGROUND INFORMATION

NOT ([SRVAO] = "No")

TIMEUVAO

12. As of November 2, 2010, how long had you served as a Unit Voting Assistance Officer (UVAO), including previous service?

- 1 Less than 6 months
- 2 6 months to less than 1 year
- 3 1 year to less than 2 years
- 4 2 years to less than 3 years
- 5 3 years or more

TRAINING

NOT ([SRVAO] = "No")

TRAINING

13. During the Unit Voting Assistance Officer (UVAO) assignment period that includes November 2, 2010, did you receive any training to prepare you for performing your UVAO duties?

- 2 Yes
- 1 No

TRAINING

NOT ([SRVAO] = "No") AND ([TRAINING] = "Yes")

TRAININGA, TRAININGB, TRAININGC, TRAININGD

14. If you received any of the following types of training, how useful was each one in preparing you for performing your Unit Voting Assistance Officer (UVAO) duties? Mark one answer for each item.

	Very useful	Useful	Somewhat useful	Not very useful	Not at all useful	Did not receive this training
a. Federal Voting Assistance Program's (FVAP) onsite UVAO training workshop	<u>5</u> <input type="checkbox"/>	<u>4</u> <input type="checkbox"/>	<u>3</u> <input type="checkbox"/>	<u>2</u> <input type="checkbox"/>	<u>1</u> <input type="checkbox"/>	<u>60</u> <input type="checkbox"/>
b. FVAP's online/CD ROM training for UVAOs	<input type="checkbox"/>					
c. Continuity Folder	<input type="checkbox"/>					
d. Training provided by your military Service	<input type="checkbox"/>					

VOTING ASSISTANCE

NOT ([SRVAO] = "No")

NUMUNIT

15. As of November 2, 2010, approximately how many permanent military members were assigned to the unit(s) where you served as a Unit Voting Assistance Officer (UVAO)?

- 1 Less than 50
- 2 50 to 99
- 3 100 to 149
- 4 150 to 199
- 5 200 to 249
- 6 250 or more

VOTING ASSISTANCE

NOT ([SRVAO] = "No")

NUMUVAOS

16. As of November 2, 2010, how many Unit Voting Assistance Officers (UVAOs) and assistant UVAOs were assigned to the unit(s) where you served as a UVAO?

Please include yourself in the total number.

- 1 1
- 2 2
- 3 3
- 4 4
- 5 5
- 6 6 or more

VOTING ASSISTANCE

NOT ([SRVAO] = "No")

NUMMMASST

17. During 2010, approximately how many permanent military members from your unit(s) did you provide with voting assistance in the primaries and the November 2 general election?

- 1 None
- 2 1 to 9
- 3 10 to 24
- 4 25 to 99
- 5 100 or more

VOTING ASSISTANCE

NOT ([SRVAO] = "No")

NUMSPDASST

18. During 2010, approximately how many military spouses and dependents did you provide with voting assistance in the primaries and the November 2 general election?

- 1 None
- 2 1 to 9
- 3 10 to 24
- 4 25 to 99
- 5 100 or more

VOTING ASSISTANCE

NOT ([SRVAO] = "No")

HOURS

- 19. Since Labor Day (September 6, 2010), approximately how many hours per week have you spent on Unit Voting Assistance Officer (UVAO) activities?**
- 1 Less than 1 hour per week
 - 2 1 hour to less than 2 hours per week
 - 3 2 hours to less than 3 hours per week
 - 4 3 hours to less than 4 hours per week
 - 5 4 hours or more hours per week

VOTING ASSISTANCE

NOT ([SRVAO] = "No")

SUPPORTA, SUPPORTB, SUPPORTC, SUPPORTD

20. During 2010, how satisfied or dissatisfied were you with the amount of support you received from each of the following groups in helping you perform your Unit Voting Assistance Officer (UVAO) duties? *Mark one answer for each item.*

	Very dissatisfied	Dissatisfied	Neither satisfied nor dissatisfied	Satisfied	Very satisfied	Did not receive any support from this group	
a. Federal Voting Assistance Program (FVAP)	<u>1</u> <input type="checkbox"/>	<u>2</u> <input type="checkbox"/>	<u>3</u> <input type="checkbox"/>	<u>4</u> <input type="checkbox"/>	<u>5</u> <input type="checkbox"/>	<u>60</u> <input type="checkbox"/>	
b. Your military Service	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
c. Your command	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	Very dissatisfied	Dissatisfied	Neither satisfied nor dissatisfied	Satisfied	Very satisfied	Did not receive any support from this group	Did not have an Installation Voting Assistance Officer
d. Your Installation Voting Assistance Officer(s)	<u>5</u> <input type="checkbox"/>	<u>4</u> <input type="checkbox"/>	<u>3</u> <input type="checkbox"/>	<u>2</u> <input type="checkbox"/>	<u>1</u> <input type="checkbox"/>	<u>60</u> <input type="checkbox"/>	<u>61</u> <input type="checkbox"/>

VOTING ASSISTANCE

NOT ([SRVAO] = "No")

VOTEASST

- 21. During 2010, what was the most frequent form of voting assistance you were asked to provide as a Unit Voting Assistance Officer (UVAO)? *Mark one answer.***
- 1 Providing paper or PDF copies of voting forms (e.g., Federal Post Card Applications [FPCAs] or Federal Write-In Absentee Ballots [FWABs]) to voters
 - 2 Directing voters to the Federal Voting Assistance Program's (FVAP) Automated Online Assistant to complete voting forms (e.g., FPCAs or FWABs)
 - 3 Helping voters complete paper or PDF copies of voting forms (e.g., FPCAs or FWABs)
 - 4 Helping voters complete voting forms (e.g., FPCAs or FWABs) using FVAP's Automated Online Assistant
 - 5 Electronically transmitting and/or receiving election materials
 - 6 Helping voters determine their legal residency and/or voting jurisdiction
 - 7 Providing addresses of local election officials
 - 8 Explaining state voting procedures and/or election deadlines to voters

TECHNOLOGICAL ASSISTANCE IN VOTING

NOT ([SRVAO] = "No")

TECHACCESSA, TECHACCESSB, TECHACCESSC, TECHACCESSD, TECHACCESSE, TECHACCESSEF, TECHACCESSG, TECHACCESSH

22. Between September 13, 2010 and November 2, 2010, were you provided with enough access to the following modes of technology to support your Unit Voting Assistance Officer (UVAO) duties? Mark one answer for each item.

	Yes, I had enough access	No, I did not have enough access	I did not have any access to this technology
	1	2	3
a. Computer	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

FEDERAL VOTING ASSISTANCE PROGRAM'S (FVAP) WEB SITE

NOT ([SRVAO] = "No") AND ([WEBSITE] = "No")

NOVISITFVAP

35. What was the main reason why you did not visit the Federal Voting Assistance Program's (FVAP) Web site in 2010?

- 1 I did not know about it
- 2 I did not know what it was for
- 3 I did not have access to the Internet
- 4 I knew about it, but did not know the Web site address
- 5 I got all the information I needed from other sources
- 6 I did not think it would be useful
- 7 Some other reason

FEDERAL VOTING ASSISTANCE PROGRAM'S (FVAP) AUTOMATED ONLINE ASSISTANT

NOT ([SRVAO] = "No")

RECMDFPCA

36. During 2010, did you recommend anyone to use the Federal Voting Assistant Program's (FVAP) Automated Online Assistant to complete a Federal Post Card Application (FPCA)?

- 2 Yes
- 1 No

FEDERAL VOTING ASSISTANCE PROGRAM'S (FVAP) AUTOMATED ONLINE ASSISTANT

NOT ([SRVAO] = "No") AND ([RECMDFPCA] = "No")

NORECMDFPCA

37. What was the main reason why you did not recommend anyone to use the Federal Voting Assistance Program's (FVAP) Automated Online Assistant to complete a Federal Post Card Application (FPCA) in 2010?

- 1 I did not know about it
- 2 I did not know what it was for
- 3 I did not have access to the Internet
- 4 I knew about it, but did not know the Web site address
- 5 I felt more comfortable having voters use paper or PDF copies of FPCAs
- 6 I did not think it would be useful
- 7 Some other reason

FEDERAL VOTING ASSISTANCE PROGRAM'S (FVAP) AUTOMATED ONLINE ASSISTANT

NOT ([SRVAO] = "No")

RECMDFWAB

38. During 2010, did you recommend anyone to use the Federal Voting Assistance Program's (FVAP) Automated Online Assistant to complete a Federal Write-In Absentee Ballot (FWAB)?

- 2 Yes
1 No

FEDERAL VOTING ASSISTANCE PROGRAM'S (FVAP) AUTOMATED ONLINE ASSISTANT

NOT ([SRVAO] = "No") AND ([RECMDFWAB] = "No")

NORECMDFWAB

39. What was the main reason why you did not recommend anyone to use the Federal Voting Assistance Program's (FVAP) Automated Online Assistant to complete a Federal Write-In Absentee Ballot (FWAB) in 2010?

- 1 I did not know about it
2 I did not know what it was for
3 I did not have access to the Internet
4 I knew about it, but did not know the Web site address
5 I felt more comfortable having voters use paper or PDF copies of FWABs
6 I did not think it would be useful
7 Some other reason

FEDERAL VOTING ASSISTANCE PROGRAM'S (FVAP) TOLL-FREE TELEPHONE SERVICE

NOT ([SRVAO] = "No")

TOLLFREE

40. The Federal Voting Assistance Program (FVAP) provides a toll-free telephone service from many countries that allows a caller to talk to FVAP staff for voting assistance. During 2010, did you use or refer anyone in your unit(s) to FVAP's toll-free telephone service?

- 2 Yes
1 No

FEDERAL VOTING ASSISTANCE PROGRAM'S (FVAP) TOLL-FREE TELEPHONE SERVICE

NOT ([SRVAO] = "No") AND ([TOLLFREE] = "Yes")

TOLLFRUSE

41. During 2010, how useful was the assistance you received from the Federal Voting Assistance Program's (FVAP) toll-free telephone service in helping you perform your Unit Voting Assistance Officer (UVAO) duties?

- 5 Very useful
- 4 Useful
- 3 Somewhat useful
- 2 Not very useful
- 1 Not at all useful
- 60 I did not use this service

FEDERAL VOTING ASSISTANCE PROGRAM'S (FVAP) TOLL-FREE TELEPHONE SERVICE

NOT ([SRVAO] = "No") AND ([TOLLFREE] = "No")

NOTOLLFREE

42. What was the main reason why you did not use, or recommend anyone to use, the Federal Voting Assistance Program's (FVAP) toll-free telephone service in 2010?

- 1 I did not know about it
- 2 I knew about it, but did not know the telephone number
- 3 I did not have access to a telephone
- 4 I knew about it, but got the desired information from other sources
- 5 I did not need it
- 6 It was a long distance call
- 7 I could not get through
- 8 Some other reason

FEDERAL VOTING ASSISTANCE PROGRAM'S (FVAP) TOLL-FREE TELEPHONE SERVICE

NOT ([SRVAO] = "No") AND ([TOLLFREE] = "No" AND [NOTOLLFREE] = "Some other reason")
NOTOLLFREESP

Please specify the main reason why you did not use, or recommend anyone to use, FVAP's toll-free telephone service.

OTHER SOURCES OF VOTING INFORMATION

NOT ([SRVAO] = "No")

SRCEINFOA, SRCEINFOB, SRCEINFOC, SRCEINFOD, SRCEINFOE, SRCEINFOF

43. During 2010, how useful were each of the following sources of information in helping you perform your Unit Voting Assistance Officer (UVAO) duties? *Mark one answer for each item.*

	Very useful	Useful	Somewhat useful	Not very useful	Not at all useful	Did not use
a. The Federal Voting Assistance Program's (FVAP) Automated Online Assistant	<u>5</u> <input type="checkbox"/>	<u>4</u> <input type="checkbox"/>	<u>3</u> <input type="checkbox"/>	<u>2</u> <input type="checkbox"/>	<u>1</u> <input type="checkbox"/>	<u>60</u> <input type="checkbox"/>
b. FVAP's online training programs	<input type="checkbox"/>

f. FVAP's Online Chat Room	<input type="checkbox"/>					

OTHER SOURCES OF VOTING INFORMATION

NOT ([SRVAO] = "No")

VOTEMATA, VOTEMATB, VOTEMATC, VOTEMATD, VOTEMATE

44. During 2010, did you have enough of the following election materials to carry out your Unit Voting Assistance Officer (UVAO) duties? Mark one answer for each item.

	Yes	No	Did not use
a. 2010-11 Voting Assistance Guide (VAG)	<u>2</u> <input type="checkbox"/>	<u>1</u> <input type="checkbox"/>	<u>60</u> <input type="checkbox"/>
b. Federal Post Card Applications (FPCAs)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c. Federal Write-In Absentee Ballots (FWABs)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d. Election Dates Posters	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e. Motivational posters	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

COMMENTS

NOT ([SRVAO] = "No")

COMMENT3

45. Thank you for participating in this Post-Election Voting survey. There are no more questions on this survey. If you would like to know when and where the results of this and other DMDC surveys are available, follow DMDC Facebook (<http://www.facebook.com/go2dmdc>) or Twitter (<http://www.twitter.com/dmdc>). Please provide any comments or questions you have regarding this questionnaire, the Federal Voting Assistance Program (FVAP), or your most recent assignment as a Unit Voting Assistance Officer (UVAO) in the space provided. Your comments will be viewed and considered as policy deliberations take place. Any comments you make on this questionnaire will be kept confidential, and no follow-up action will be taken in response to any specifics reported. Your feedback is useful and appreciated.

2010 Post-Election Voting Survey of Unit Voting Assistance Officers
Information Gathered on the Survey

VARIABLE NAME	ITEM NUMBER	LABEL	PAGE
SRVAO	1.	[1] VAO on election day	1
MILSERVE	3.	[3] Military service, fed civilian	2
MILGRADE	4.	[4] Military paygrade	3
CIVGRADE	5.	[5] Civilian paygrade	4
STATION	6.	[6] Stationed US or overseas	5
HOWLONG	7.	[7] How long stationed in country	6
SRAGEGP	8.	[8] Self-report age in groups	7
CURRASGN	9.	[9] Assigned as same UVAO as election	8
NCURASGN	10.	[10] Time as UVAO for 11/2 assignment	9
UVAOSERV	11.	[11] Serve VAO before current assign	10
TIMEUVAO	12.	[12] Total time as VAO	11
TRAINING	13.	[13] Training for 11/2 assignment	12
TRAININGA	14a.	[14a] UsefulTrain: Onsite training	13
TRAININGB	14b.	[14b] UsefulTrain: Online training	14
TRAININGC	14c.	[14c] UsefulTrain: Continuity Folder	15
TRAININGD	14d.	[14d] UsefulTrain: Service	16
NUMUNIT	15.	[15] Num in unit(s) you serve as UVAO	17
NUMUVAOS	16.	[16] Num UVAO/assistant where you serve	18
NUMMMASST	17.	[17] Num provide MM vote assist	19
NUMSPDASST	18.	[18] Num provide SP&D vote assist	20
HOURS	19.	[19] Work hours since Labor Day	21
SUPPORTA	20a.	[20a] VAO support: FVAP	22
SUPPORTB	20b.	[20b] VAO support: Service	23
SUPPORTC	20c.	[20c] VAO support: Command	24
SUPPORTD	20d.	[20d] VAO support: IVAO	25
VOTEASST	21.	[21] Most freq vote assist	26
TECHACCESSA	22a.	[22a] TechAccess: Computer	27
TECHACCESSB	22b.	[22b] TechAccess: Printer	28
TECHACCESSC	22c.	[22c] TechAccess: Fax	29
TECHACCESSD	22d.	[22d] TechAccess: Internet	30
TECHACCESSE	22e.	[22e] TechAccess: Gov't Web sites	31
TECHACCESSF	22f.	[22f] TechAccess: Non-gov't Web site	32
TECHACCESSG	22g.	[22g] TechAccess: DoD e-mail address	33
TECHACCESSH	22h.	[22h] TechAccess: Personal e-mail address	34
TECHDAYSA	23a.	[23a] TechDays: Computer	35
TECHDAYSB	23b.	[23b] TechDays: Printer	36
TECHDAYSC	23c.	[23c] TechDays: Fax	37
TECHDAYSD	23d.	[23d] TechDays: Internet	38
TECHDAYSE	23e.	[23e] TechDays: Gov't Web sites	39
TECHDAYSF	23f.	[23f] TechDays: Non-gov't Web sites	40
TECHDAYSG	23g.	[23g] TechDays: DoD e-mail address	41
TECHDAYSH	23h.	[23h] TechDays: Personal e-mail address	42
VAG	24.	[24] Receive VAG	43
VAGUSEFUL	25.	[25] VAG useful in perform UVAO	44
LIKEVAGA	26a.	[26a] VAG Feat: SbyS info reg/voting	45
LIKEVAGB	26b.	[26b] VAG Feat: Elections/deadline date	46
LIKEVAGC	26c.	[26c] VAG Feat: How to fill FPCA	47
LIKEVAGD	26d.	[26d] VAG Feat: Forms mailing addresses	48

INELIGABLE	46	<p>---</p> <p>You have indicated that you were not assigned as a Unit Voting Assistance Officer (UVAO) on November 2, 2010. If you know who the UVAO was for your unit on November 2, 2010 then do the following three steps: □</p> <p>[b-1] Click the Back button, □</p> <p>[b-1] Clear your answer, and □</p> <p>[b-1] Forward the survey notification to the person who was the UVAO on November 2, 2010. □</p> <p>□</p> <p>If you don't know who the UVAO was then click Submit Survey to submit the survey. □</p> <p>For further help, please call our Survey Processing Center toll-free at 1-800-881-5307 or e-mail UVAOSurvey@osd.pentagon.mil.</p>	---		

REPORT DOCUMENTATION PAGE

*Form Approved
OMB No. 0704-0188*

The public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Department of Defense, Washington Headquarters Services, Directorate for Information Operations and Reports (0704-0188), 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number.

PLEASE DO NOT RETURN YOUR FORM TO THE ABOVE ADDRESS.

1. REPORT DATE (DD-MM-YYYY)		2. REPORT TYPE		3. DATES COVERED (From - To)	
4. TITLE AND SUBTITLE			5a. CONTRACT NUMBER

INSTRUCTIONS FOR COMPLETING SF 298

1. REPORT DATE. Full publication date, including day, month, if available. Must cite at least the year and be Year 2000 compliant, e.g. 30-06-1998; xx-06-1998; xx-xx-1998.

2. REPORT TYPE. State the type of report, such as final, technical, interim, memorandum, master's thesis, progress, quarterly, research, special, group study, etc.

3. DATES COVERED. Indicate the time during which the work was performed and the report was written, e.g., Jun 1997 - Jun 1998; 1-10 Jun 1996; May - Nov 1998; Nov 1998.

4. TITLE. Enter title and subtitle with volume number and part number, if applicable. On classified documents, enter the title classification in parentheses.

5a. CONTRACT NUMBER. Enter all contract numbers as they appear in the report, e.g. F33615-86-C-5169.

5b. GRANT NUMBER. Enter all grant numbers as they appear in the report, e.g. AFOSR-82-1234.

5c. PROGRAM ELEMENT NUMBER. Enter all program element numbers as they appear in the report, e.g. 61101A.

5d. PROJECT NUMBER. Enter all project numbers as they appear in the report, e.g. 1F665702D1257; ILIR.

5e. TASK NUMBER. Enter all task numbers as they appear in the report, e.g. 05; RF0330201; T4112.

5f. WORK UNIT NUMBER. Enter all work unit numbers as they appear in the report, e.g. 001; AFAPL30480105.

6. AUTHOR(S). Enter name(s) of person(s) responsible for writing the report, performing the research, or credited with the content of the report. The form of entry is the last name, first name, middle initial, and additional qualifiers separated by commas, e.g. Smith, Richard, J, Jr.

7. PERFORMING ORGANIZATION NAME(S) AND ADDRESS(ES). Self-explanatory.

8. PERFORMING ORGANIZATION REPORT NUMBER. Enter all unique alphanumeric report numbers assigned by the performing organization, e.g. BRL-1234; AFWL-TR-85-4017-Vol-21-PT-2.

9. SPONSORING/MONITORING AGENCY NAME(S) AND ADDRESS(ES). Enter the name and address of the organization(s) financially responsible for and monitoring the work.

10. SPONSOR/MONITOR'S ACRONYM(S). Enter, if available, e.g. BRL, ARDEC, NADC.

11. SPONSOR/MONITOR'S REPORT NUMBER(S). Enter report number as assigned by the sponsoring/monitoring agency, if available, e.g. BRL-TR-829; -215.

12. DISTRIBUTION/AVAILABILITY STATEMENT. Use agency-mandated availability statements to indicate the public availability or distribution limitations of the report. If additional limitations/ restrictions or special markings are indicated, follow agency authorization procedures, e.g. RD/FRD, PROPIN, ITAR, etc. Include copyright information.

13. SUPPLEMENTARY NOTES. Enter information not included elsewhere such as: prepared in cooperation with; translation of; report supersedes; old edition number, etc.

14. ABSTRACT. A brief (approximately 200 words) factual summary of the most significant information.

15. SUBJECT TERMS. Key words or phrases identifying major concepts in the report.

16. SECURITY CLASSIFICATION. Enter security classification in accordance with security classification regulations, e.g. U, C, S, etc. If this form contains classified information, stamp classification level on the top and bottom of this page.

17. LIMITATION OF ABSTRACT. This block must be completed to assign a distribution limitation to the abstract. Enter UU (Unclassified Unlimited) or SAR (Same as Report). An entry in this block is necessary if the abstract is to be limited.
