FEDERAL VOTING ASSISTANCE PROGRAM
DEPARTMENT OF DEFENSE
WASHINGTON, DC 20301-1155

September 24, 2008

The Honorable Deborah Markowitz
Secretary of State
26 Terrace Street, Drawer 9
Montpelier, VT 05609-1101

Dear Secretary Markowitz,

I would like to thank you for the work you and the state of Vermont have done over the past several years to promote and support the legislative initiatives the Federal Voting Assistance Program (FVAP) has recommended. The 2006 elections pointed out the importance of the states enacting these legislative initiatives. In particular, the provision of 45 or more days for ballot transit; electronic transmission of Federal Post Card Applications, blank ballots, and voted ballots; and, authorization for the state chief election official to implement emergency measures. States with these provisions were able to support a greater number of situations faced by our brave men and women serving in combat areas such as Iraq and Afghanistan, and other U.S. citizens worldwide. I would ask you also to consider alternative methods that these citizens could use to request their absentee ballots such as phone, or email, and utilizing digital signatures with electronically transmitted materials.

After reviewing Vermont's existing election code and procedures, I have identified nine initiatives that the Vermont legislature might consider during the upcoming legislative session. These initiatives are discussed in detail with suggested wording in the enclosed legislative initiatives document. If these initiatives are enacted and signed into law, they would significantly help to facilitate the absentee voting process for Vermont's citizens covered by the *Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA)*. Information available to FVAP indicates that there are 2,878 Uniformed Services members, an estimated 2,000 family members and approximately 8,000 overseas citizens that claim Vermont as their voting residence.

As you review the enclosed initiatives for possible inclusion in Vermont's 2008 legislative agenda, please do not hesitate to contact us for assistance. We can provide legislative wording that other states have enacted to implement similar measures and provide written or in-person testimony, if desired. We have come a long way in simplifying the absentee voting process since the enactment of the *UOCAVA*—let's continue our joint efforts to achieve the simplest possible absentee voting process while maintaining its integrity.

Sincerely,

J. Scott Wiedmann
Deputy Director

Enclosure:
2008 Legislative Initiatives and Suggested Wording

Vermont 2009 Legislative Initiatives and Sample Language

The Need for 45-Day Ballot Transit Time

The most persistent problem which continues to face Vermont military and overseas voters is the extremely short period of time these voters have to receive, vote, and return their absentee ballots in order to be counted. While electronic transmission of election materials offers an alternative to inadequate ballot transit time in emergency situations, the fact remains that insufficient ballot transit time through the mail continues to be the primary obstacle to ensuring timely delivery of absentee ballots for those who request them. Our post-election surveys and Postal Service statistics indicate that a **45-day transit time is needed** for absentee ballots sent through international mail or the military APO/ FPO (overseas) post offices. This round trip transit time is especially necessary because of the remote location of many military personnel and overseas citizens such as sailors and marines aboard ship, airmen and sailors at isolated tracking sites around the world, as well as Department of State personnel and citizen employees of American multinational corporations in remote areas. Forty-one states have provisions for the 45-day transit time.

Sample Language

For all elections, the official charged with the printing and distribution of ballots and election materials shall print as many absentee ballots as may be necessary as soon as possible after receiving the information concerning candidates and measures to be voted on at an election, and balloting materials shall be mailed not later than the 45th day before the election.

Electronic Transmission of Election Materials

Since the 1990 general election, electronic transmission has proven to be a valuable alternative method for facilitating the enfranchisement of military persons and overseas citizens serving their country who may have otherwise been unable to vote. This initiative has helped ensure these citizens were not disenfranchised by allowing them to cast a ballot when they would not otherwise have been able to vote due to time and location constraints.

Throughout an election year cycle, various circumstances exist that require the need for this alternative procedure in order for citizens to vote. The basic concept of electronic transmission of election materials is to secure high-speed delivery of election materials to and from the voter and local election officials. Your support in developing the **acceptance of electronic transmission for all aspects of the process**, with proper controls, would cut the ballot transit time at least in half. This would reduce the major obstacle to voting absentee and allow local election officials more administrative flexibility in preparing election materials.

Consideration should be given to expand the use of modern technology in the absentee voting process. We realize Vermont currently allows for electronic transmission of the FPCA for registration and ballot request and electronically sending the blank ballot to the voter. We encourage enacting legislation for acceptance of the voted ballot electronically from the voter

where circumstances would otherwise disenfranchise a citizen. Below is sample legislation that will provide for this alternative.

Sample Language

An applicant who is a member of the United States Uniformed Services or merchant marine, a family member, or is a qualified elector living outside the United States, may apply for registration and an absentee ballot by electronic transmission if otherwise qualified to apply for and vote by absentee ballot. An auditor or clerk may send and receive absentee ballot applications, blank ballots and accept voted ballots from eligible electors via electronic transmission.

Emergency Authority for Chief Election Official

During a period of a declared emergency or other situation where a short time-frame for ballot transmission is created, it is recommended that **Vermont's Chief Election Official have the authority to designate alternate methods for handling absentee ballots** to ensure voters have the opportunity to exercise their right to vote. The Chief Election Official and the Federal Voting Assistance Program could establish expeditious methods for handling absentee ballots including electronic transmission. Eighteen states have granted emergency authority to the Chief Election Official.

Sample Language

If a national or local emergency or other situation arises which makes substantial compliance with the provisions of the Uniformed and Overseas Citizens Absentee Voting Act impossible or unreasonable, such as a natural disaster or an armed conflict involving United States Armed Forces, or mobilization of those forces, including State National Guard and Reserve components of this state, the Chief Election Official may prescribe, by emergency orders or rules, such special procedures or requirements as may be necessary to facilitate absentee voting by those citizens directly affected who otherwise are eligible to vote in the state.

The Chief Election Official shall adopt rules describing the emergency powers and the situations in which the powers will be exercised.

Late Registration Procedures

We recommend that Vermont **allow persons recently separated from the Uniformed Services or overseas employment, and their family members, to be able to register late or be exempt from registration**. Many members of the Uniformed Services and overseas citizens go through a transition period when they first leave the Uniformed Services or overseas employment and may reside in your state just prior to an election and this time frame does not meet your state's normal residency requirements. Often, the date of discharge or termination of overseas employment and a state's registration requirement combine to disenfranchise a discharged military member or overseas citizen returning home after

employment abroad. Special procedures to allow these persons to register and vote would solve this problem. Twenty-nine states currently allow such procedures.

Sample Language

An individual, or accompanying family member who has been discharged or separated from the Uniformed Services, the merchant marine, or from employment outside the territorial limits of the United States, too late to enable him or her to register by the regular state deadline for registration, shall be entitled to register for the purpose of voting at the next ensuing election after such discharge, separation, or termination of employment.

Enfranchise Citizens Who Have Never Resided in the U.S.

There are many U.S. citizens who have never resided in a state and under current law are not entitled to vote. These are usually first or second-generation citizens who are subject to U.S. income tax and all other requirements of citizens. Except for the fact that they have never resided in a state, they would be eligible to vote in Federal elections. Some local election officials make exceptions and allow these citizens to vote. Sixteen states have passed legislation allowing these citizens to claim the legal residence of a parent. **We recommend these citizens be allowed to vote in elections for Federal offices** where either parent is eligible to vote under *UOCAVA*.

Sample Language

If a U.S. citizen outside the United States who has never lived in the United States has a parent who is a qualified elector, then that person is eligible to register and vote where his or her parent is a qualified elector.

State Write-In Absentee Ballot

We also recommend Vermont provide a state write-in absentee ballot for all elections. The purpose of the state write-in absentee ballot is to **provide a method for voting by military and other persons overseas who, due to military contingencies or special circumstances such as those faced by submariners, Federal employees and contractors, Peace Corps volunteers, missionaries or others in remote areas, will be out of communication for extended periods of time and unable to receive the regular ballot from the State in the normal time frame**. A voter could request a state write-in absentee ballot 90 days in advance and write in the names of the candidates or party preferences. The voter knows in advance that he or she will not be able to receive, vote, and return the regular ballot from the State in time to be counted. Twenty-nine states now have state write-in absentee ballots.

This special write-in absentee ballot should not be confused with the Federal Write-In Absentee Ballot (FWAB) that is prepositioned at embassies and consulates, military installations, overseas organizations and corporations. In comparison, the FWAB is generally only available to military members on active duty absent from their voting residence and overseas citizens who have

already applied for a regular absentee ballot from the state. They do not know in advance that they need the FWAB. If the regular ballot from the state does not arrive in sufficient time for the voter to return the voted ballot and meet the deadline, these voters may obtain, vote, and return the FWAB to the local election official.

It is also important to note that a state write-in absentee ballot usually provides a "full" slate of offices to be voted upon including Federal, state, and local offices. On the other hand, the FWAB generally allows voting for Federal offices.

Sample Language

If the voter is a U.S. citizen residing outside the United States or a member of the United States Uniformed Services, merchant marine, or family member, and a qualified elector, he or she may request, not earlier than 180 days before an election, a state write-in absentee ballot. The voter must submit with the request a statement that provides that due to military or other contingencies that preclude normal mail delivery, the elector cannot vote an absentee ballot during the normal absentee voting period.

Reference to the Uniformed and Overseas Citizens Absentee Voting Act (*UOCAVA*)

In 1986, Congress updated and consolidated the provisions of the Federal Voting Assistance Act of 1955 and the Overseas Citizens Voting Rights Act of 1975 into the Uniformed and Overseas Citizens Absentee Voting Act (*UOCAVA*). **Reference to *UOCAVA* in the state election code** will help election officials and interested citizens find guidance to applicable Federal law and increase their familiarity with the statute and its application. Thirty-seven states have modified state election code to reference *UOCAVA*.

Sample Language

This language is usually found under the chapter in the State Election Code that makes reference to Federal elections:

It is the intent and purpose of this Legislature that the provisions set forth in this chapter are designed to facilitate the Federal mandate of the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA, 42 U.S.C. 1973 ff et. seq.).
