SECTION D – REPORT REQUIREMENTS

Santa Cruz: Data Collection Point Reporting Requirements.

FVAP hypothesizes that the use of smart technology would bring the percentage of unreturned ballots much more in line with the general population's absentee ballot success rates. These research data collection point reports will provide FVAP with data needed to prove or disapprove its hypothesis. Therefore, the following data reports are required 45 days after each election for federal office during the grant's term.

The term "election" is defined as —

- (A) a general, special, primary, or runoff election;
- (B) a primary election held for the selection of delegates to a national nominating convention of a political party; and
- (C) a primary election held for the expression of a preference for the nomination of individuals for election to the office of President.

A federal election is defined as the office of President or Vice President, or of Senator or Representative in, or Delegate or Resident Commissioner to, the Congress.
