Acknowledgments

Defense Manpower Data Center (DMDC) is indebted to numerous people for their assistance with the *2012 Post-Election Voting Survey of the Active Duty Military (2012 PEV5)*, which was conducted on behalf of the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). The survey program is conducted under the leadership of Kristin Williams, Director of the *Human Resources Strategic Assessment Program (HRSAP)*.

Federal Voting Assistance Program (FVAP) staff and other FVAP stakeholders contributed to the development of this survey.

DMDC's Survey Design, Analysis, & Operations Branch, under the guidance of Paul Rosenfeld, Branch Chief, is responsible for the development of questionnaires in the survey program. The program manager on this survey was Fred Licari. The lead survey design analyst and lead operations analyst was Kimberly Hylton, SRA International, Inc. She used DMDC's Statistical Analysis Macro to calculate the estimates and designed the unique presentation of complex items used in this tabulation volume. Carol Newell, Team Lead of Survey Operations, is responsible for the survey database construction and archiving.

DMDC's Statistical Design Branch, under the guidance of David McGrath, Branch Chief, is responsible for sampling and weighting methods used in the survey program. The lead statistical analyst on this survey was Owen Hung, SRA International, Inc., supervised by Fawzi Al Nassir, SRA International, Inc., who designed the sample and developed weights for this survey. Susan Reinhold and Carole Massey provided programming support for the sampling and weighting tasks. Data Recognition Corporation (DRC) performed data collection and editing.

Lynn Walthall, SRA International, Inc., formatted and assembled this tabulation volume using DMDC's Survey Reporting Tool. A team consisting of Kimberly Hylton, Margaret Coffey, and Kimberly Williams completed quality control for this tabulation volume.

31. Did you return your Federal Post Card Application (FPCA) for the November 6, 2012, election using any of the following sources? 41

32. Taking all things into consideration, how satisfied were you with the overall absentee voting process? 42

33. How satisfied or dissatisfied were you, in general, with each aspect of the absentee voting process?..... 43

 a. Process of registering to vote 43

 b. Process of requesting an absentee ballot..... 44

 c. Process of receiving/getting an absentee ballot 45

 d. Process of completing absentee ballot 46

 e. Process of returning absentee ballot to local election official..... 47

34. If you were to vote using an absentee ballot in a future election, how would you prefer to receive the absentee ballot? 48

35. If you were to vote using an absentee ballot in a future election, how would you prefer to return the absentee ballot? 49

2012 ELECTION

36. How interested or uninterested were you in the U.S. elections held on November 6, 2012? 50

37. During the past 6 years, did you usually vote in national, state, and local elections, or did you usually not vote?..... 51

38. Did you usually vote in {subitems a-b}..... 52

39. During the months leading up to the election held on November 6, 2012, did you ever plan to vote in that election, or didn't you plan to vote?..... 53

40. In the election held on November 6, 2012, did you definitely vote in person on election day, definitely complete an absentee ballot by mail, e-mail, fax, or online on or before November 6, 2012, definitely not vote, or are you not completely sure whether you voted in that election? 54

41. What was the main reason you did not vote in the November 6, 2012, election? {Options 1-8} 55

41. What was the main reason you did not vote in the November 6, 2012, election? {Options 9-16} 56

ABSENTEE BALLOTS

42. Were you aware that you could use the Federal Write-In Absentee Ballot (FWAB; Standard Form 186) for the November 6, 2012, election? 57

43. Did you use the Federal Write-In Absentee Ballot (FWAB) in the November 6, 2012, election?..... 58

44.	Did you obtain your Federal Write-In Absentee Ballot (FWAB) for the November 6, 2012, election from any of the following sources?.....	59
45.	How did you use the Federal Voting Assistance Program (FVAP) website to complete your Federal Write-In Absentee Ballot (FWAB)?.....	60
46.	In 2012, overall how satisfied or dissatisfied were you with the assistance you received filling out the Federal Write-In Absentee Ballot (FWAB) from the automated assistant/wizard on the Federal Voting Assistance Program (FVAP) website?	61
48.	When did you complete and return the Federal Write-In Absentee Ballot (FWAB) for the November 6, 2012, election?	62
49.	What is the MAIN REASON you did not use the Federal Write-In Absentee Ballot (FWAB) for the November 6, 2012, election?	63

VOTING ASSISTANCE

50.	During 2012, did you receive voting information or assistance from a Unit Voting Assistance Officer (UVAO)?	64
51.	In 2012, overall how satisfied or dissatisfied were you with the information or assistance you received from your Unit Voting Assistance Officer (UVAO)?	65
52.	During 2012, did you receive the following information or assistance from your Unit Voting Assistance Officer (UVAO)?	66
53.	In 2012, what is the MAIN REASON you didn't receive voting information or assistance from your Unit Voting Assistance Officer (UVAO)?.....	67
54.	During 2012, did you receive voting information or assistance from an Installation Voter Assistance Office (IVAO)?	68
55.	In 2012, overall how satisfied or dissatisfied were you with the information or assistance you received from your Installation Voter Assistance Office (IVAO)?	69
56.	During 2012, did you receive the following information or assistance from your Installation Voter Assistance Office (IVAO)?	70
57.	In 2012, what is the MAIN REASON you didn't receive voting information or assistance from your Installation Voter Assistance Office (IVAO)?	71
58.	In preparation for the 2012 primaries and general election, did you visit the Federal Voting Assistance Program (FVAP) website?	72
59.	Overall, how satisfied or dissatisfied were you with the Federal Voting Assistance Program (FVAP) website when you visited it in 2012?.....	73
60.	How much do you agree or disagree with the following statements about the Federal Voting Assistance Program (FVAP) website?	74

a.	State voting and related instructions were clear and easy to understand.....	74
b.	Contact information was easy to find.....	75
c.	Search feature met my needs.....	76
d.	I was able to find what I needed quickly and easily.....	77
e.	I was able to find the materials and forms I needed to vote.....	78
61.	In preparation for the 2012 primaries and general election, how many times did you visit the Federal Voting Assistance Program (FVAP) website?	79
62.	In 2012, why didn't you visit the Federal Voting Assistance Program (FVAP) website?	80
63.	In preparation for the 2012 primaries and general election, did you refer to the Department of Defense 2012-13 Voting Assistance Guide (VAG) for information about registering to vote or requesting an absentee ballot?.....	81
64.	Overall, how would you rate the 2012-13 Voting Assistance Guide (VAG) as a reference on absentee voting procedures?	82
65.	Where did you obtain the 2012-13 Voting Assistance Guide (VAG)?.....	83
66.	During 2012, what was the most important information you were looking for in the 2012-13 Voting Assistance Guide (VAG)?	84
67.	Why didn't you use the 2012-13 Voting Assistance Guide (VAG)?	85
68.	Did you use the Federal Voting Assistance Program's (FVAP's).....	86
a.	Online chat service?	86
b.	E-mail support?	87
c.	Toll-free telephone service?	88
69.	Overall, how satisfied or dissatisfied were you with the assistance you received in 2012 from the Federal Voting Assistance Program's (FVAP) staff via the online chat, e-mail support, or toll-free telephone service?	89
70.	In 2012, why didn't you use the Federal Voting Assistance Program (FVAP) online chat and/or e-mail support to get assistance from a FVAP staff member?	90

a.	Federal Post Card Application (FPCA) for absentee ballot.....	113
b.	Other non-Federal Post Card Application (FPCA) request for absentee ballot	114
c.	Voted regular absentee ballot	115

- d. Voted Federal Write-In Absentee Ballot (FWAB)..... 116
- e. Other voting materials..... 117
- 76. During 2012, did you e-mail any of the following materials?..... 118

2010 ELECTION

- 77. Did you vote in the 2010 elections for the U.S. Senate and U.S. House of Representatives? 119

BACKGROUND INFORMATION

- 78. During 2012, did you have a change of duty station, deploy overseas, or return from an overseas deployment? 120
- 79. What is the highest degree or level of school that you have completed? 121

2012 POST-ELECTION VOTING SURVEY OF THE ACTIVE DUTY MILITARY: TABULATIONS OF RESPONSES

Introduction to the Survey

The *Human Resources Strategic Assessment Program* (HRSAP), Defense Manpower Data Center (DMDC), conducts surveys to support the personnel information needs of the Under Secretary of Defense for Personnel and Readiness (USD[P&R]). These surveys assess the attitudes and opinions of the entire Department of Defense (DoD) community. DMDC developed the *Post-Election Voting* (PEV) surveys in 2008. These surveys are conducted every other year at the request of the Federal Voting Assistance Program (FVAP) office as required by the Uniformed and Overseas Citizens Absentee Voting Act of 1986, Section 101.b (1), 42 USC §1973ff (UOCAVA) and the Military and Overseas Voter Empowerment Act (MOVE Act). The surveys provide an evaluation of the effectiveness of assistance provided UOCAVA voters in federal elections.

This report contains tabulations of responses from the *2012 Post-Election Voting Survey of the Active Duty Military* (2012 PEV5) conducted October 30, 2012, to January 16, 2013. Active duty military are Uniformed Service members covered by the UOCAVA. The UOCAVA population consists of active duty members of the Army, Navy, Marine Corps, Air Force, and Coast Guard, and members of the Reserve component population in the Active Guard/Reserve (AGR/FTS/AR)¹ or who were activated on November 6, 2012. In addition, members of the population must: (1) have at least 6 months of service at the time the questionnaire is first fielded, (2) be U.S. citizens, (3) be at least 18 years old, and (4) be below flag rank at survey fielding.

This introduction (1) summarizes the survey content, (2) defines the total population surveyed and the subgroups used in tabulations of responses, (3) summarizes the survey methodology,² and (4) provides details on how to use the tabulations. The tabulations and a copy of the survey items follow this introduction.³

Survey Content

Topics covered in the 2012 PEV5 include background information, the 2012 election, absentee ballots, voting assistance, other sources of voting information, electronic transmission of voting materials, and the 2010 election. The survey was subdivided into the following seven topic areas:

1. *Background Information*—Service; Reserve component; activation status of Reserve component members; citizenship; age; paygrade; marital status; race/ethnicity; location on November 6, 2012; time overseas; combat operations involvement; location of legal voting residency; distance from legal voting residence; member's change of duty station or overseas deployment in 2012; and highest degree or level of school completed.

¹ Names for this program vary among Reserve components: AGR/FTS/AR is a combination of Active Guard/Reserve (AGR), Full-Time Support (FTS), and Active Reserve (AR).

² Details on survey methodology are reported by DMDC (2013b).

³ Refer to DMDC (2013a) to view a screen-shot version of the survey as it appeared on the Web.

2. *2012 Election*—Voter registration status, opportunity to complete a Federal Post Card Application (FPCA), voting interest in 2012 election, voting history, voting behavior in 2012 election, and reasons for not voting in 2012 election.
3. *Absentee Ballots*—Absentee ballot requests; receipt, completion, and return of absentee ballots; satisfaction with absentee voting process; preferences about using absentee ballots in future elections; use and return of FPCA; use and return of Federal Write-In Absentee Ballot (FWAB); use of FVAP website to complete FPCA or FWAB; satisfaction with automated assistant/wizard on FVAP website; and reasons for not using FWAB.
4. *Voting Assistance*—Receipt of and satisfaction with information and assistance from Unit Voting Assistance Officer (UVAO) and Installation Voter Assistance Office (IVAO); types of information and assistance received from UVAO and IVAO; reasons for not receiving information and assistance from UVAO and IVAO; use of and satisfaction with FVAP website; reasons for not using FVAP website; use of DoD *2012-13 Voting Assistance Guide (VAG)*; rating of, source of, and reasons for using or not using VAG; use of and satisfaction with FVAP's online chat service, e-mail support, and toll-free telephone service; and reasons for not using FVAP online chat and e-mail support.
5. *Other Sources of Voting Information*—Use of other sources of voting information, including social media (Twitter, Facebook, LinkedIn, and Google+), government agencies, political organizations, and news media; and best sources of information for future absentee voting.
6. *Electronic Transmission of Voting Materials*—Access to government and non-government websites, fax, e-mail, printers, and scanners from Labor Day to November 2012 election and use of fax and e-mail for voting materials during 2012.
7. *2010 Election*—Voting behavior in the 2010 election.

Population and Reporting Categories

Survey results are presented for the total active duty military population and by a variety of reporting categories. The active duty military consists of members of the active duty population and members of the Reserve component population in the AGR/FTS/AR or on active duty at the time of the survey.⁴ To form the reporting categories for the tabulations, respondents were classified by survey self-report. If the self-reported data are missing, then DMDC's *Active Duty Master File* or *Reserve Components Common Personnel Data System* data, at the time of sampling, are used to impute a subgroup classification. Survey results are tabulated by active component, AGR and activated Reservist, paygrade, age, gender, voter registration status, location, voting behavior in 2012 election, and change of duty station or overseas deployment in 2012. Definitions for reporting categories follow:

⁴ Refer to DMDC (2013a) for a description of the target population for the active duty military.

- *Overall and Service*—Respondents are grouped overall by *Active Duty* which is broken down by *Active Component* and *AGR and Activated Reservist*. *Active Component* categories include Army, Navy, Marine Corps, Air Force, and Coast Guard. *AGR and Activated Reservist* includes members of the Reserve component population in the AGR/FTS/AR or on active duty at the time of the survey.
- *Paygrade*—The *Enlisted* subgroup includes all enlisted paygrades (E1-E9). The *Enlisted* subgroup is broken into the following groups: *E1 – E5* and *E6 – E9*. The *Officers* subgroup includes warrant officers (W1-W5) and commissioned officers (*O1 – O3* and *O4 – O6*).
- *Age*—Categories include *18 to 24 Years Old*, *25 to 29 Years Old*, *30 to 34 Years Old*, *35 to 44 Years Old*, and *45 Years Old or More*.
- *Gender*—This category is self-explanatory.
- *Voter Registration Status*—Respondents are classified based on self-report categories. *Registered to Vote* includes members who indicated they were registered to vote in the United States in 2012.
- *Location*—The primary classification distinguishes *Overseas* from *US (Incl. Territories)*. *US (Incl. Territories)* includes respondents with permanent duty stations located in the 50 states, the District of Columbia, Puerto Rico, and United States territories or possessions. *Overseas* includes respondents who were located overseas or on board a ship on November 6, 2012. The categories include *US (Incl. Territories)* and *Overseas* overall and broken down by age groups.
- *Voting Behavior in 2012 Election*—Respondents are classified based on self-report categories. *Definitely Voted* includes members who indicated they definitely voted in person, by mail, by e-mail, at an online website, or by fax in the November 6, 2012, election. *Definitely Did Not Vote* includes members who indicated they definitely did not vote in the election. *Definitely Did Not Vote* is further broken down by *Interested*, *Neither Interested Nor Uninterested*, and *Uninterested* groups, indicating if members were interested or were not interested in voting in the election.
- *Change of Duty Location*—Respondents are classified based on self-report categories. *Change in 2012* includes members who indicated they had a change of duty station, deployed overseas, or returned from an overseas deployment in 2012. *No Change in 2012* includes members who indicated they did not have a change of duty station, did not deploy overseas, and did not return from an overseas deployment in 2012.

Survey Methodology

The Web survey administration process began on October 30, 2012, with the mailout of notification letters to sample members. This notification letter explained why the survey was being conducted, how the survey information would be used, and why participation was important. Throughout the administration period, additional e-mail,

postal, and telephone reminders were used to encourage survey participation. Data were collected on the Web from November 7, 2012, to January 16, 2013.

Single-stage, nonproportional stratified random sampling⁵ procedures were used. The sample consisted of 89,999 individuals (60,273 active duty members; 9,988 AGR/FTS/AR members or Reserve component members on active duty at the time of sampling; and 19,738 Reserve component members not in the AGR/FTS/AR and not on active duty at the time of sampling) drawn from the sample frame constructed from DMDC's *Active Duty Master File and Reserve Components Common Personnel Data System*. Members of the sample became ineligible if they indicated in the survey or by other contact (e.g., telephone calls to the data collection contractor) that they were not on active duty, were not a U.S. citizen, or were not at least 18 years old as of November 6, 2012 (2.2% of the sample).

Completed surveys were received from 10,611 eligible respondents (8,305 active duty members; 2,002 AGR/FTS/AR members or Reserve component members on active duty at the time of sampling; and 304 Reserve component members not in the AGR/FTS/AR and not on active duty at the time of sampling). The overall weighted response rate for eligible sample members from the UOCAVA population was 16.6%.⁶

Data were weighted using the industry standard three-stage process. This form of weighting produces survey estimates of population totals, proportions, and means (as well as other statistics) that are representative of their respective populations. Unweighted survey data, in contrast, are likely to produce biased estimates of population statistics. The three-stage process of weighting consists of the following steps:

- *Adjustment for selection probability*—Probability samples such as the sample for this survey are selected from lists, and each member of the list has a known nonzero probability of selection. For example, if a list contained 10,000 members in a demographic subgroup and the desired sample size for the subgroup was 1,000, one in every tenth member of the list would be selected. During weighting, this selection probability (1/10) is taken into account. The base, or first weight, used to adjust the sample is the reciprocal of the selection probability. In this example, the adjustment for selection probability (base weight) is 10 for members of this subgroup.
- *Adjustments for nonresponse*—Some sampled members do not respond to the survey. Continuing the previous example, suppose only half of sample members (i.e., 500 out of 1,000) completed and returned a survey. Because

⁵ In stratified random sampling, all members of a population are categorized into homogeneous groups. For example, members might be grouped by paygrade and Service (e.g., all Army enlisted members in one group). Members are chosen at random within each group. Small groups are oversampled in comparison to their proportion of the population so there will be enough responses from small groups to analyze. Weights are used so that groups are correctly represented in the analyses.

⁶ The overall weighted response rate for eligible sample members from the UOCAVA population is calculated for respondents who were considered part of the UOCAVA population at the time of sampling. The overall weighted response rate for the active duty sample was 15.8%, and the overall weighted response rate for the sample of AGR/FTS/AR members and Reserve component members on active duty at the time of sampling was 26.2%.

the unweighted sample size would only be 500, weights are needed to project the sample up to the subgroup population total (10,000). In this case, the base-weighted respondents would sum to only 5,000 weighted respondents. To adjust for nonresponse, the base weights are multiplied by the reciprocal of the nonresponse rate. In this example, the base weight (10) is multiplied by the reciprocal of the nonresponse rate (2) to create a new weight of 20. The weighted sample sums to the subgroup population total of 10,000.

- *Adjustment to known population values*—The first of the two previous weighting adjustments are applied according to the demographic groupings used in designing the subgroups for the sample. The second is based on population characteristics that are known to be related to whether a sample member responds to the survey. Because the sample design and adjustments for nonresponse cannot take into account all demographic differences related to who responds to a survey and how they respond, auxiliary information is used to increase the precision of survey estimates. For this reason, a final weighting adjustment is computed that reproduces population totals for important demographic groupings related to who responds to a survey and how they might answer the survey. Suppose in our example the population for the subgroup was 8,500 men and 1,500 women but the nonresponse-adjusted weighted estimates from the respondents was 7,000 men and 3,000 women. To reduce this possible bias and reproduce known population totals, the weights would be adjusted by 1.21 for men and 0.5 for women, which would give unbiased estimates of the total and of men and women in the subgroup.

Table 1 (page 6) shows the number of respondents and the portion of total respondents in each reporting group. Also shown are the estimated number of members and the portion of total members in each reporting group. Differences in the percentages of respondents and population for the reporting categories reflect differences in the number sampled, as well as differences in response rates.

Tabulation Procedures

Tabulations⁷ for each question from the survey are shown on one page. To compress the width of columns in the tables, the response options are shown with a number or letter; then, that number or letter is used as the column heading for the responses. The central feature of the tabulations is the percentage of members choosing the response options indicated by the column heading. Within a set of response options, percentages may not add to 100% due to rounding error.

⁷ Details of data editing and preparation are provided by DMDC (2013a).

Where an item lends itself to presentation as an average, that average is also shown as both a number estimate and in a bar chart. The averages lend themselves to a quick scan for reporting groups differing from other similarly defined groups. In some cases, the responses are averages of the numeric scales presented with the response options. Where there is a simple binomial response (e.g., yes/no), only one percentage is presented. In this case, the bar chart represents that percentage.

On each page of tabulations, the first column lists the reporting group shown in that row. The second column, *Percent Responding*, lists the portion of the reporting group represented in the estimates in that row. In most cases, if this percentage is not 100, it may reflect item nonresponse, and the table note indicates that “Percent responding are active duty military members who answered the question.”

Not all questions will apply to every respondent. Where possible, the Web survey is programmed to skip respondents over questions that do not apply to them. For example, Q11 (As of November 6, 2012, how long had you been located in this country?) does not apply to those who marked in Q10 that they were in the United States/territories or on board a ship. The table note for this question indicates, “Percent responding are active duty military members who answered the question and who were located overseas on November 6, 2012 (Q10).”

Two items (Q22 and Q47) are not included in the tabulations. Only three members of the total sample responded to Q22 (How did you use the overseas organization [e.g., Overseas Vote Foundation (OVF)] to complete your Federal Post Card Application [FPCA]?), and only one member of the total sample responded to Q47 (Did you use the following for your Federal Write-In Absentee Ballot [FWAB]?). As a result, the data are not reportable.

Margins of Error

The complex sample design required weighting to produce population estimates (e.g., percent female).⁸ Because of the weighting, conventional formulas for calculating the margin of error will overstate the reliability of the estimate. For this report, variance estimates were calculated using SUDAAN[®] PROC DESCRIPT (Research Triangle Institute, 2004).

By definition, sample surveys are subject to sampling error. Standard errors are estimates of the variance around population parameters, such as percentages or means, and are used to construct margins of error (i.e., confidence interval half-widths). Percentages and means in these tabulations are reported with margins of error based on 95% confidence intervals. In order to compress the data display, only the maximum margin of error (*Max ME*) for each reporting category is shown. That is,

⁸ As a result of differential weighting, only certain statistical software procedures (such as SUDAAN[®] PROC DESCRIPT) correctly calculate standard errors, variances, or tests of statistical significance for stratified samples.

[®] Registered 2004 by Research Triangle Institute, P.O. Box 12194, Research Triangle Park, NC 27709-2194.

the tabulation volume shows only the largest margin of error for the percentages or means in each row. For each average shown in these tabulations, its margin of error is also printed.

The following reporting conventions are used:

- “0” indicates that no one in any reporting group selected the response option,
- NR indicates the estimate is *Not Reportable* and is suppressed because of low reliability. Estimates of low reliability are suppressed based on criteria defined in terms of nominal sample size (less than 5), effective sample size (less than 30), or relative standard error (greater than 0.225),
- NA indicates the question was *Not Applicable* because the question did not apply to respondents in the reporting category based on answers to previous questions,
- no Max ME is printed when all percentages in the row are shown as NR,
- no margin of error is printed for an average when it is shown as NR.

Note. Percent responding are active duty military members who answered the question. Legal voting residence is defined as the state or territory where active duty military members last resided prior to entering military service OR that they have since claimed as their legal residence. The right to vote extends to members even though they may no longer own property or have other ties to that state.

14. On November 6, 2012, did you live more than 50 miles from your legal voting residence?

57. In 2012, what is the MAIN REASON you didn't receive voting information or assistance from your Installation Voter Assistance Office (IVAO)?

1. I did not need any voting information or assistance.
2. I was not interested in voting.
3. My location does not have an IVAO.
4. I did not know I could get information or assistance from the IVAO.
5. I did not know how to contact the IVAO.
6. I was unable to contact my IVAO because I was deployed.
7. I was busy preparing for/recovering from a PCS/move.
8. The IVAO was not available when I needed assistance.
9. The IVAO was not helpful when I needed assistance.
10. The IVAO did not have the materials or information I needed.
11. I received my voting assistance elsewhere.
12. Some other reason

2012 Post-Election Voting Survey of the Active Duty Military

Welcome

[Security Protection Advisory](#)

[RCS#DD-P&R\(AR\)2145](#)

[Exp. 04/30/2014](#)

You have been selected to take a survey for members of the active duty military on your experience with the absentee voting process during the November 2012 General Election. When you click the *Continue* button below, you will be asked to:

- Create a Personal Identification Number (PIN)
- Read the Privacy Act & Informed Consent Statement
- Take the survey, which should only take you about 20 minutes

Thank you for your time and participation.

[Frequently Asked Questions / How to Contact Us](#)

PRIVACY ACT STATEMENT & INFORMED CONSENT INFORMATION

In accordance with the Privacy Act, this notice informs you of the purpose of the survey and how the findings of these surveys will be used. It also provides information about the Privacy Act and about informed consent. Please read it carefully.

AUTHORITY: The authority to solicit the information requested in this survey is contained in the Uniformed and Overseas Citizens Absentee Voting Act of 1986, Section 101.b (1), 42 USC §1973ff (UOCAVA) and the Military and Overseas Voter Empowerment Act (MOVE Act), a subtitle of the National Defense Authorization Act for Fiscal Year 2010.

PRINCIPAL PURPOSE: Information collected in this survey will be used to evaluate the effectiveness of assistance under UOCAVA, as amended in November 2009 by the MOVE Act, in the 2012 election. Reports will be provided to the Federal Voting Assistance Program (FVAP). Previous survey results have affected decisions in critical areas such as establishing advertising campaigns geared towards 18-24 year old Uniformed Service members, utilizing social networking sites to encourage voter participation, and developing online Federal Post Card Application and Federal Write-In Absentee Ballot wizards. Survey results are also the basis for developing Legislative initiatives. Some findings may be published by the Defense Manpower Data Center (DMDC) or in professional journals, or presented at conferences, symposia, and scientific meetings. Data could be used in future research. Datasets without any identifying information may be analyzed by researchers outside of DMDC. Survey results will be posted on the Web: www.fvap.gov

ROUTINE USES: None.

DISCLOSURE: Providing information on this survey is voluntary. Most people can complete the survey in 20 minutes. There is no penalty or loss of benefits to which you are entitled if you choose not to respond. However, maximum participation is encouraged so that the data will be complete and representative. Your survey responses will be treated as confidential. Identifying information will be used only by government and contractor staff engaged in, and for purposes of, survey research. For example, the research oversight office of the Office of the Under Secretary of Defense (Personnel and Readiness) and representatives of the U.S. Army Medical Research and Materiel Command are eligible to review research records as a part of their responsibility to protect human subjects in research. This survey is being conducted for research purposes. In no case will individual identifiable survey responses be reported.

SURVEY ELIGIBILITY AND POTENTIAL BENEFITS: DMDC uses well-established, scientific procedures to randomly select a sample that represents the Defense community based on combinations of demographic characteristics (for example, location, gender). This is your chance to be heard on issues that directly affect you, including sources of voting information and assistance, satisfaction with voting information and assistance, and voting in the 2012 election. While there is no direct benefit for your individual participation, your responses on this survey **make a difference**. Individuals who are minors as per their state law are not eligible to participate in the survey.

STATEMENT OF RISK: The data collection procedures are not expected to involve any risk or discomfort to you. The only risk to you is accidental or unintentional disclosure of the data you provide. However, the government and its contractors have a number of policies and procedures to ensure that survey data are safe and protected. For example, no identifying information (name, address, Social Security Number) is ever stored in the same file as survey responses. Survey data may be shared with organizations doing research on DoD personnel but only after minimizing detailed demographic data (for example, paygrade and detailed location information) that could possibly be used to identify an individual. A confidentiality analysis is performed to reduce the risk of there being a combination of demographic variables that can single out an individual. Government and contractor staff members have been trained to protect client identity and are subject to civil penalties for violating your confidentiality.

If you experience any difficulties taking the survey, please contact the Survey Processing Center by sending an e-mail to ADMSurvey@osd.pentagon.mil or call, toll-free, 1-800-881-5307. If you have concerns about your rights as a research participant, please contact the OUSD(P&R) Research Regulatory Oversight Office at 703-575-2677/703-575-3536 or e-mail R2O2@tma.osd.mil.

Once you start answering the survey, if you desire to withdraw your answers, please notify the Survey Processing Center prior to December 20, 2012. Please include in the e-mail or phone message your name, Ticket Number, and the PIN that you selected when you started this survey. Unless withdrawn, partially completed survey data may be used after that date.

Click *Continue* if you agree to do the survey.

FREQUENTLY ASKED QUESTIONS

What is the Federal Voting Assistance Program (FVAP)?

- FVAP administers the Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA) on behalf of the Secretary of Defense. FVAP provides U.S. citizens worldwide a broad range of non-partisan information and assistance to facilitate their participation in the democratic process - regardless of where they work or live.

What is Defense Manpower Data Center (DMDC)?

- DMDC maintains the largest archive of personnel, manpower, training, and financial data in the Department of Defense (DoD). DMDC also conducts Joint-Service surveys including the Status of Forces Surveys, QuickCompass, and Human Relations Surveys for the DoD. To learn more, visit the DMDC website.

<http://www.dmdc.osd.mil/>

What is the Post-Election Voting (PEV) Program?

- Post-Election Voting (PEV) surveys are sponsored by the Director of FVAP as the Presidential designee to administer UOCAVA. UOCAVA, as amended by the Military and Overseas Voter Empowerment Act (MOVE Act), requires FVAP to report to Congress how effective programs are for assisting uniformed service members and overseas voters in Federal elections. The PEV surveys are designed to assist FVAP in administering UOCAVA and are used to develop ways to make absentee voting easier for military personnel and overseas citizens.

What is the UOCAVA?

- The Uniformed and Overseas Citizens Absentee Voting Act (UOCAVA) was enacted in 1986. UOCAVA law permits members of the Uniformed Services and Merchant Marines, their eligible family members, and U.S. citizens residing overseas, to vote in Federal elections. The Federal Voting Assistance Program (FVAP) has been charged with administering UOCAVA law and works to ensure UOCAVA citizens their right to vote no matter where in the world they may be residing.

How do I know this is an official, approved DoD survey?

- In accordance with [DoD Instruction 8910.01](#), all data collection in the Department must be licensed and show that license as a Report Control Symbol (RCS) with an expiration date. The RCS for this survey is RCS#DD-P&R(AR)2145, expiring 04/30/2014.

How did you pick me?

- DMDC uses well-established, scientific procedures to randomly select a sample that represents the Defense community based on combinations of demographic characteristics (e.g., location, gender).

Why should I participate?

- This is your chance to be heard on issues that directly affect you, including sources of voting information and assistance, satisfaction with voting information and assistance, and voting in the 2012 election.
- Your responses on this survey **make a difference**.

How do I participate?

- The survey will be available at this website around November 7, 2012. Currently, you may (1) read the Privacy Act Statement, (2) verify contact information, and (3) provide e-mail address(es) so we can notify you when the survey launches.

What is ADMSurvey@osd.pentagon.mil?

- The official e-mail address for communicating with military members about Post-Election Voting (PEV) surveys. "[ADMSurvey](mailto:ADMSurvey@osd.pentagon.mil)" is short for [Active](#) [Duty](#) [Military](#) [Survey](#).

Why am I being asked to use the Web?

- Web administration enables us to get survey results to senior Defense leaders faster.

Why are you using a .net instead of a .mil domain to field your survey?

- The survey is administered by our contractor, Data Recognition Corporation, an experienced survey operations company. The survey collection tool starts on a .mil site within DMDC. Once you enter your ticket number, you are redirected to a contractor site which uses a .net domain. This allows everyone to access the survey, even from a non-government computer.

Do I have to answer all questions?

- No, it is not necessary to answer every question. Within the survey screen, you have four control buttons: *Next Page* (→), *Previous Page* (←), *Clear Responses*, and *Save and Return Later*. Use these buttons to navigate through the survey or skip questions. Use *Save and Return Later* to give yourself flexibility to complete the survey at a convenient time. When you return to the survey website, enter your Ticket Number to get to the place in the survey where you had stopped.

Why does the survey ask personal questions?

- DMDC reports overall results, as well as other characteristics, such as location, gender, etc. To complete analyses, we must ask respondents for these types of demographic information.
- Analyzing results in this way provides Defense leaders information about the attitudes and concerns of all subgroups of personnel so that no groups are overlooked.
- Sometimes sensitive questions are asked in order to improve personnel policies, programs, and practices. As with all questions on the surveys, your responses will be held in confidence.

Will my answers be kept private?

- Your privacy will be safeguarded in accordance with the Privacy Act of 1974 (Public Law 93-579).
- All data will be reported in the aggregate and no individual data will be reported.
- We encourage you to safeguard your Ticket Number to prevent unauthorized access to your survey. In addition, to ensure your privacy, be aware of the environment in which you take the survey (e.g., take the survey when no one else is home, take care to not leave the survey unattended).

Can I withdraw my answers once I have started the survey?

- If you wish to withdraw your answers, please notify the Survey Processing Center prior to December 20, 2012 by sending an e-mail to ADMSurvey@osd.pentagon.mil or calling, toll-free 1-800-881-5307. Include your name, Ticket Number, and PIN.

Will I ever see the results of the survey?

- FVAP will post survey results and a corresponding post-election report to Congress at www.fvap.gov
